From one computer desk to Europe's fastest-growing furniture company

10
year warranty

This is our promise of
longevity and sustainability.

Scan and see
Warranty statement

Our story began in 1991. We set out on a mission to make quality and modern workspaces available to more people.

From a single product – a desk for a computer in 1991, our range grew to offer everything you need to furnish a modern office.

We produce diverse products from desks and chairs to acoustic furniture rich in technological solutions.

All of this is done in Lithuania, home to one of the largest office furniture factories in Eastern and Central Europe.

Apart from the constantly expanding production capabilities and technologies, over time our company has developed strong in-house innovation, custom-made furniture, IT, logistics, customer support departments.

All of this allows us to ensure the quality of every single step in product development.

FROM CONCEPT TO FULL EXECUTION

“
I also found out that, just like me, our customers like functional and good quality products and are not willing to pay for what they do not need. That is why we design and manufacture functional, high-quality, attractive yet simple things. Our design motto is: Nothing unnecessary.

Petras Narbutas,
company founder and owner

Concept & Design

In-house design team

Our award-winning in-house design team comprises professionals with almost 30 years of experience in furniture production and design. The achievements of the team were most recently celebrated by receiving the prestigious German Design Award 2023.

Working with international designers

NARBUTAS experienced product development team and innovation group work closely together to find optimal, high-quality solutions. Additionally, we collaborate with internationally known designers from Lithuania, Italy, Denmark, Japan, etc. Longterm work with international partners brings great results.

Find more about our work with designers on pages 9-17.

Globally relevant

By combining Italian design, subtle Scandinavian minimalism, and natural Lithuanian coziness, we deliver design that will outlast short-lived regional fads and will be easy to integrate, expand, or combine with existing furniture and interior solutions.

Nothing unnecessary

It matters to us that our furniture is functional, high-quality, and attractively designed, and at the same time, we make sure that our customers do not have to pay for what they do not need.

Manufacturing

The continuous modernization and automation of NARBUTAS furniture factory in Lithuania ensure a reliable production process and the highest quality of furniture produced, both standard and custom-made.

Using advanced technology

We make substantial investments in machinery and automate processes for our people to be able to focus on what really matters. Our main goal is to reduce the workload for our employees and to increase our production volume.

Integrating lean production

We follow the lean method to be able to hedge against the risk of error even during the rapid growth of volumes. We are growing at an incredible speed: around 40% a year. The lean method has allowed us to be flexible and to eliminate all possible errors in advance. Even with this growth, we are continuing to manufacture within the 2-week window that has always been our standard.

Assuring quality

Our quality control is executed in multiple stages to assure there are no errors in the final result. First, we check the quality of materials received from our suppliers, secondly, the components produced, finally, one more inspection of the completed components is conducted before the packaging process. While all these processes take a long time, they enable us to ensure that only high-quality products are delivered to our customers.

Set-up & Consulting

We offer various solutions aimed at making the whole process, from choosing your furniture to setting it up as quick and simple as possible.

Extensive customer support

Highly qualified NARBUTAS customer support team speaks seven languages (Lithuanian, English, French, German, Russian, Italian, Polish, Spanish). Dedicated key account managers assure timely response and work with tight client feedback loops.

Tailored visualizations

Our team will help you make the most of your office space by suggesting a layout for your office and the furniture according to your expressed needs. We make it easier for you to imagine products in your space by creating tailored 3D visualizations.

Online ordering system and additional services

NARBUTAS online price list contains extensive information regarding our product ranges and services including catalogues, product presentations, technical sheets, operation manuals, and pictures. All of our assembling schemes are made available on our website or can be found by scanning the QR code on the box of the product. This way we make it easier for clients to plan the assembling process and time in advance. We provide videos explaining the more difficult parts of assembling. For your convenience also provide full support in logistical arrangements.

Custom-made solutions

There is no office culture that works in the same way, there is no team that has the same needs. This is why we specialize in custom-made office furniture that attends to individual needs.

Flexibility & professionalism

Experienced team of professionals can adapt the size or materials of our current standard products to suit your office requirements or create new ones. Engineers of Non-standard Furniture Department will consider every last detail to suggest the best solution and bring your vision to life. All ideas turn into functional and ergonomic office furniture.

Technical capacity

Our state-of-the-art equipment is highly universal and allowing us to manufacture both large and small individual orders. It makes us very flexible when it comes to customer requests and the capability of realizing even the most complex projects. We have mastered the use of diverse materials, creating furniture with bentwood or metal elements of varying complexity, as well as upholstered and acoustic furniture.

Find more about the custom-made solutions we offer our customers on pages 450-461.

Christina Strand and Niels Hvass

“

We met the NARBUTAS team and felt that the company's strategy fitted into our way of working. We developed a good relationship and met great enthusiastic people who want to move the company forward.

Strand + Hvass have many years of experience in the world of design. Over the years, their style has developed to become modern and innovative, yet based on classic values and a timeless aesthetic. They have a bold vision of the value and impact of design on today's world and create unique products to match.

Baldanzi & Novelli Designers

“
The extraordinary thing I have discovered in Lithuania is the desire to create things. While working together hand in hand our two cultures mix and complement each other resulting in a third element – an energy that cannot be found elsewhere.

Collaboration of Baldanzi & Novelli designers and NARBUTAS began in 2013 with mutual interest. NARBUTAS were interested in Baldanzi & Novelli's more than 30 years of experience, great design culture, originality, and familiarity with cutting-edge technology, while the designers were attracted to the company's clear-cut vision and recognizable style.

Paolo Pampanoni

“
I want to discover new forms and bring more colors to a modern office.

Paolo Pampanoni is an Umbria-based architect specializing in architecture for work and design. His leading principle is the "performance principle": every aspect of the design of space or products must lead to a formal, functional, technical, or economic performance.

Orlandini Design

“ I don't think we need new objects unless they have something new to say. When I design a new piece of furniture, such as a chair or a desk, it has to add something different to my life. A new charming shape, a new way of working, a new technical solution, a new material.

Folco Orlandini was born in 1972 in the Italian city of Grosseto. He studied architecture at the Polytechnic University of Milan before gaining work experience in various design studios. Since 2009, together with his father Paolo, he has been running the legendary Orlandini Design studio founded by his father in the 1960s.

Alegre Design

“ We believe that the future of design lies in combining creativity and precision. With NARBUTAS, we fuse aesthetics and cutting-edge technology to configure workspaces that are as functional as they are inspiring.

The creative philosophy of the studio Alegre Design is to inspire change through innovations and design, think and create not only what is expected today but also anticipate what people will need in the nearest future. This studio understands design as a global concept that encompasses more than just style, it has the potential to create realistic solutions for the product's lifespan: from the production process itself, the sustainability of its manufacturing, the use efficiency, the user interface or its environmentally-friendly materials.

Q-ACTIVE

Ergonomic
workplace in
just 9 minutes

A workplace with a sit-stand desk is versatile and easily adapts to different working styles and changing tasks. Thus, we invite you to discover Q-ACTIVE. It is a modern sit-stand desk that makes it quick and easy to set up an ergonomic workplace.

24

↑
MAX
1292 mm
MIN
642 mm

** - left/right

Optimised smart packaging

The Q-ACTIVE sit-stand desk is delivered pre-assembled, with the entire frame in one package and your chosen desktop in the other. The smart packaging design ensures smoother and faster product assembly.

26

Very quick assembly – an advantage for large projects

The structure of the Q-ACTIVE desk was developed in such a way that the desk can be assembled as quickly as possible, allowing you to set up your office workplaces in the shortest possible time. The whole Q-ACTIVE desk can be assembled in just 9 minutes.

← 1000 / 1200 / 1400 / 1600 / 1800 / 2000 →

Wide range of applications for different spaces

27

With a range of desktop sizes and colours, as well as a telescopic frame that fits all desktops, you can create desks of your desired design that are easily adaptable to different office spaces.

Achieve your level of comfort

The height of the desk can be adjusted with the button of your choice – with a screen or up/down version. You can choose the most comfortable desk height for you and save your two preferred positions.

The sensor in the desk legs reacts to obstacles by automatically stopping the desktop. The anti-collision feature reduces the likelihood of damage should the desk collide with a hard object.

Workplace
that inspires

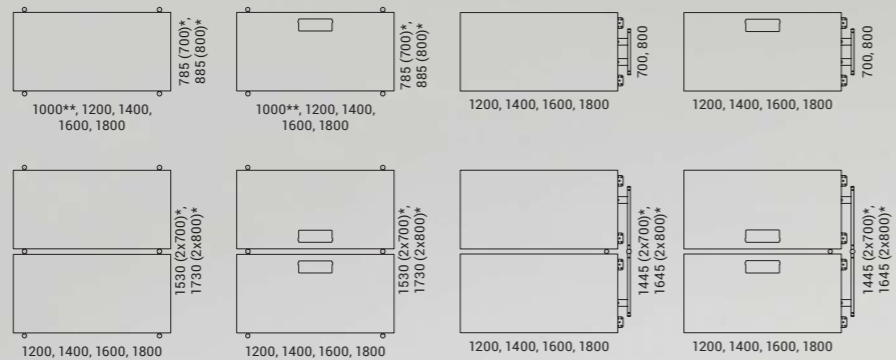

A work environment with an original character makes employees more engaged and helps them to build and maintain a closer relationship with a company. ZEDO is an inspiring and flexible desk system featuring distinctive design with carefully selected and colourful accessories that will help you create workplaces with a unique character.

46

47

* - desktop depth
** - only 785 (700)

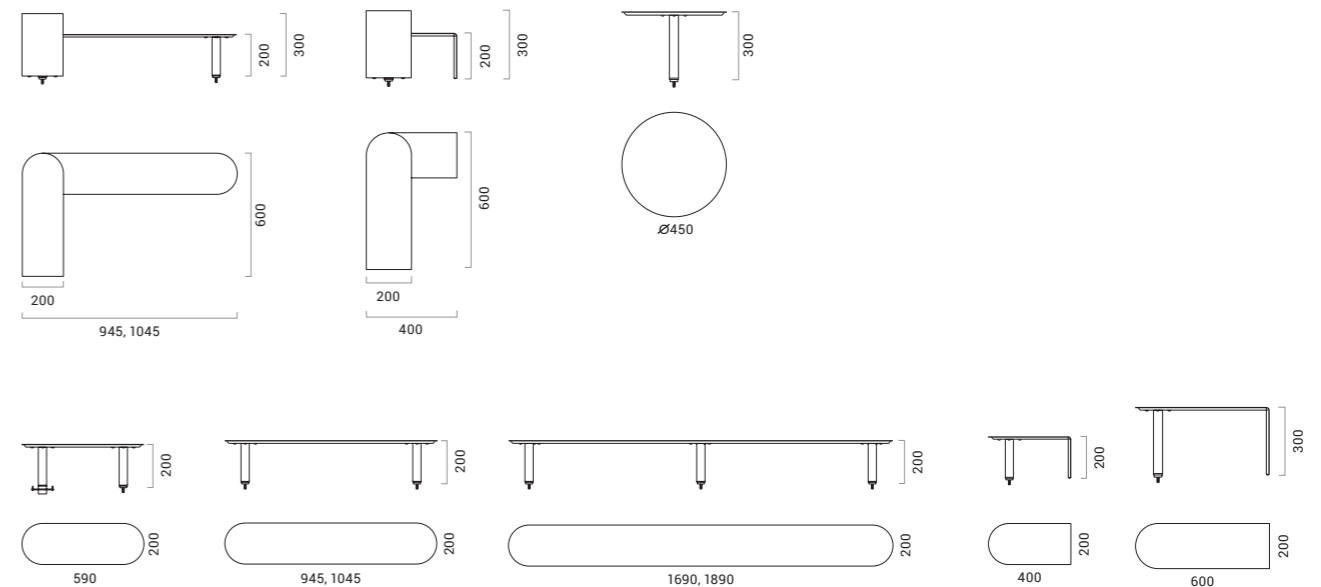

Original design and unique combinations

The main element of the ZEDO design is a round metal leg on the outer part of the table, with a playful coloured plug as the final touch. The original design of the desks offers a very wide range of options for combining the colours of legs, plugs and accessories to create a unique workplace atmosphere.

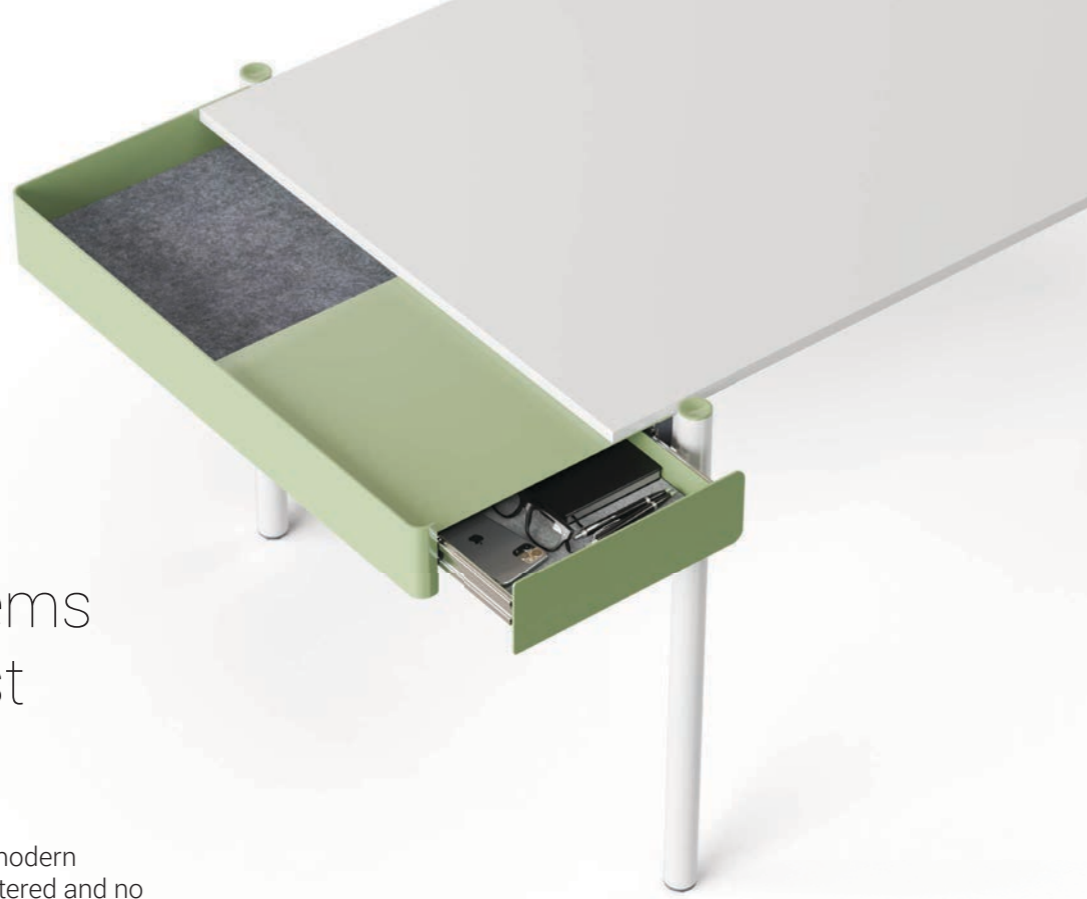

Colourful shelves – stylish and practical

Bicoloured metal shelves create a distinctive and stylish look. Shelves of varying forms can be combined with each other and into higher compositions. That way you will also clear your desk of small items and be able to clean it easily as well as disinfect.

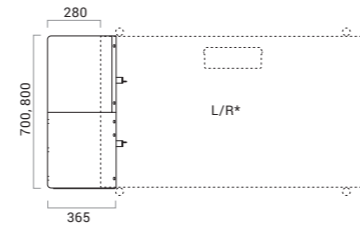

DESKS

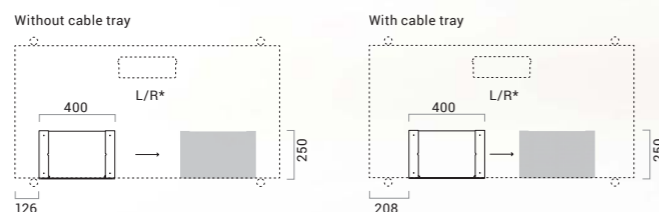

For storing items in a minimalist workplace

Thanks to digital technology, a modern workplace is becoming less cluttered and no longer requires many cabinets. Minimalist drawers and open niches with a PET felt lining are perfect for such a case.

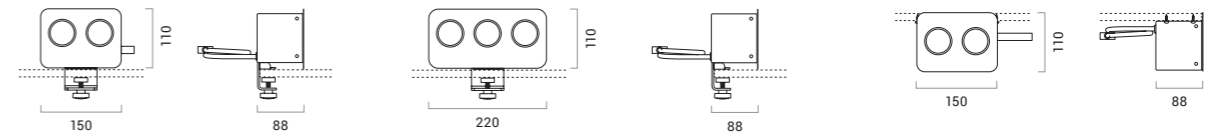

50

* - left/right

DESKS

Design continuation in convenient power solutions

Exceptional power units blend in the whole design concept perfectly due to the choice of metal colour and rounded forms. The power unit can be mounted on or under the desk for convenient and quick access to electricity.

51

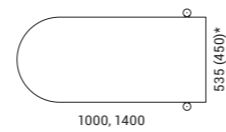

DESKS

An easily adaptable
return table

Extend your desk possibilities with a rotatable return table that can be used for both temporary work while standing and short meetings due to its larger height.

52

90

Architectural design

The main design element of the table is a sculptural cylindrical column resembling classical architecture. It is the unifying and distinctive design element of the PARTHOS table collection. Round tables are ideal for effective collaboration, because we can see and hear each other well and actively share ideas and information.

Thoughtful functional solutions

You will not see any protruding cables on the PARTHOS tables, as they are hidden under the tabletop in a PET felt cable tray and column. For two and three column meeting tables, you can also choose a rectangular metal table grommet for wire management.

91

Developed according to the sustainability principles

The tables are made from recyclable materials using energy from renewable sources. The furniture is durable and its design is well thought out. The tables that are no longer in use can be easily disassembled and their parts can then be recycled.

**CONFERENCE
& MEETING
TABLES**

Design with
elegant shapes

The cylindrical column is covered with PET felt, whose textural pattern of vertical lines further emphasises the allusion to the element of classical architecture.

ARQUS

POUFS

Make room for
one more idea

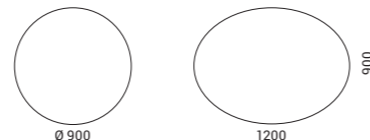

Because of their low height, regular coffee tables are less convenient when used in meeting settings. Nevertheless, informal work meetings and discussions often happen in lounge areas. This poses a problem that the interior designer Annie Lee decided to solve by creating ZooZoo, a coffee table with an atypical height of 69 cm.

98

Modern design

The ZooZoo collection was designed with inviting and friendly curvilinear shapes paired with light and clean lines of metal verticals. The knife edge tabletop brings out sleek and airy feel while the soft shape of the pouf maintains a welcoming atmosphere.

99

Multitude of possible
combinations

The wide choice of finishes and colours available will enable you to create the desired aesthetic that will align seamlessly with your interior design concept.

Design by Paolo Pampanoni

For an inspiring
workplace for
meetings

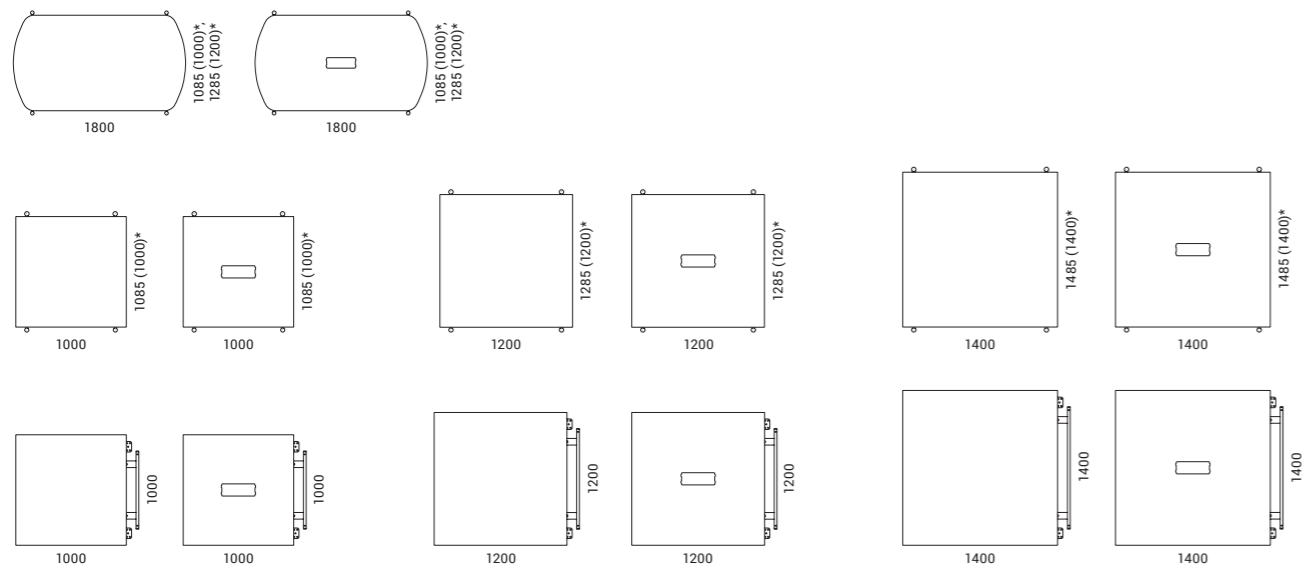

Due to the original design, the ZEDO meeting table can be in a regular shape or, using a supplementary unit and shelves, transform into a unique combination.

102

Two forms

ZEDO meeting tables are available with square or rounded edges. Depending on the chosen desk size, four to six people can comfortably collaborate at a desk.

* - tabletop depth

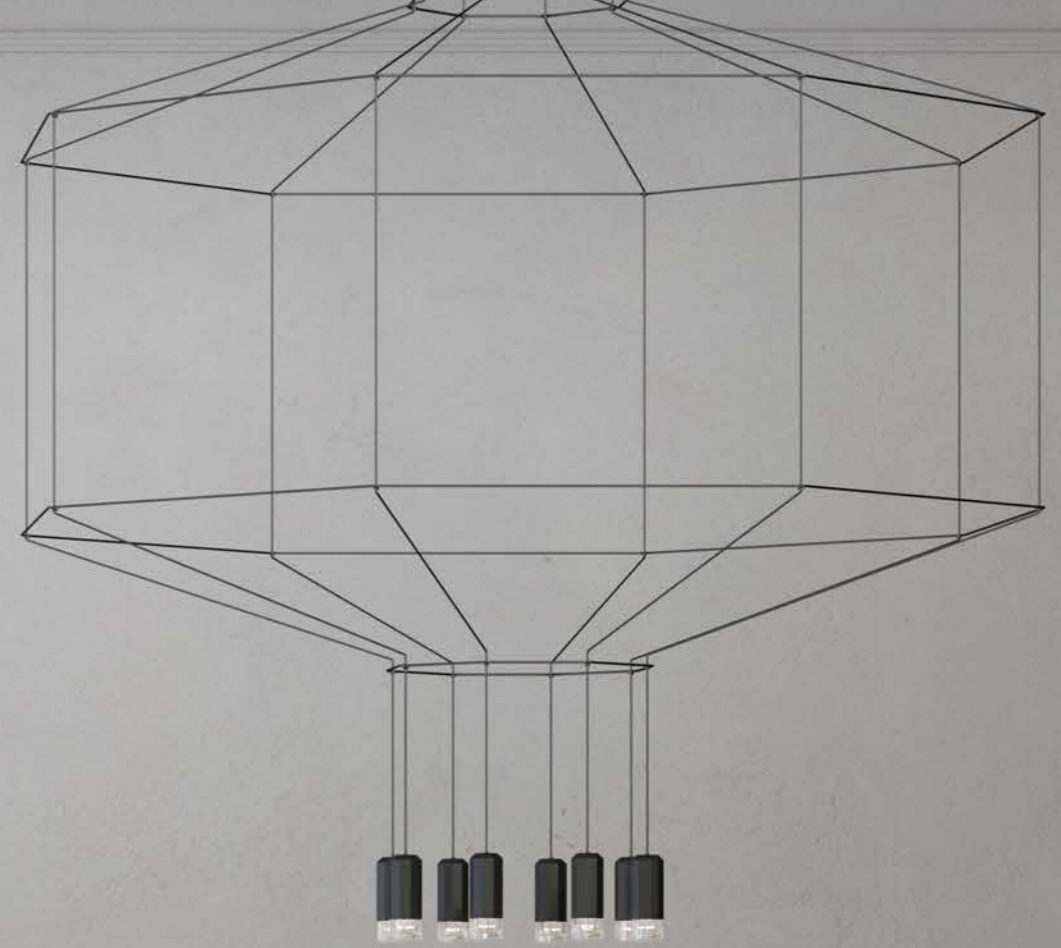

103

**CONFERENCE
& MEETING
TABLES**

Flexible adjustability

Flexibility is an integral feature of a modern workplace. You will easily adjust ZEDO meeting tables to your changing needs and the size of your team. With supplementary units, you can extend a meeting table and set up to 20 workplaces.

110

A cosy multipurpose island for efficient meetings

The multipurpose meeting table can serve as a cosy island for convenient team meetings in an open-plan office. Thanks to the three different height options of the tabletop and the well-designed accessories, the multipurpose NOVA Wood table will enable you to create a more private, practical space for both long meetings or spontaneous stand-up meetings for coming up with quick solutions or generating ideas.

* Tabletops are also available with cut out for power socket.

TABLES

Design by Roberto Lucci & Paolo Pampanoni

Exclusive meeting tables

The Italian design of the tables is based on the harmony of straight and curved lines.

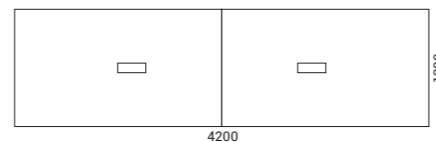

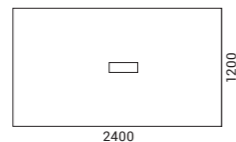

Quality is in the details

The rectangular tables come with soft closing grommet, beautifully framed in metal and concealing the box for wire management. This functional detail becomes invaluable in long meetings.

112

113

The elegant three-part curved steel legs are crafted using difficult technology and are the ultimate distinctive feature of the system. The solid thick tabletop increases the sturdiness and the visual impact of the tables.

EXECUTIVE
FURNITURE

AIR meeting tables offer a variety of different shapes and capacities ranging from round tables for a few people to rectangular tables which can be joined together to form a large conference space. These tables have an option for hidden cable management so you can keep the tabletop as tidy as possible while charging your laptop or mobile phone.

118

The central cover can be removed to reveal a channel that holds accessories and closed for a neat and tidy conference table.

AIR

Let the work flow
with JAZZ

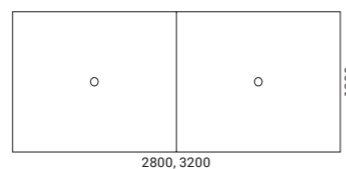

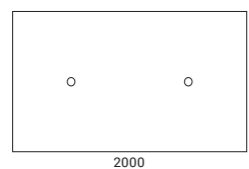

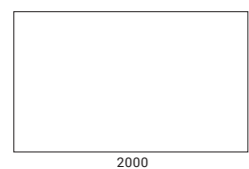

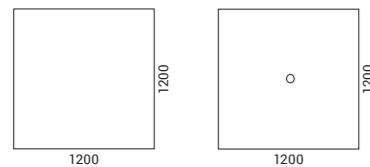

JAZZ meeting tables are ideal for various kinds of meetings as they are available both as height adjustable and fixed height tables.

120

The design of the height adjustable JAZZ meeting table is unique in that the base of the table is made of concrete. This type of table from the JAZZ line is ideal for short meetings, quick brainstorming sessions or simply enjoyable coffee breaks.

For regular meeting zones accommodating longer meetings, we offer fixed height desks featuring clean lines. These tables are ideal for a team of eight, ten or twelve people.

WORKLAB

Design by Baldanzi & Novelli designers

“

The idea arose from the need to have a dynamic workspace and to break free from orderly office schemes. It has been designed to fit in all those spaces that need to be modified on demand.

Baldanzi & Novelli designers

Distinctive design and ensured mobility

This multifunctional piece of furniture was designed by the Italian design studio Baldanzi & Novelli designers. The construction of WORKLAB is based on a metal frame that is robust, durable and easy to clean. Its shape is simple, but also stands out in a traditional work environment. Large castors are an integral part of the WORKLAB design, ensuring the mobility of this piece of furniture and enhancing its unique image.

126

127

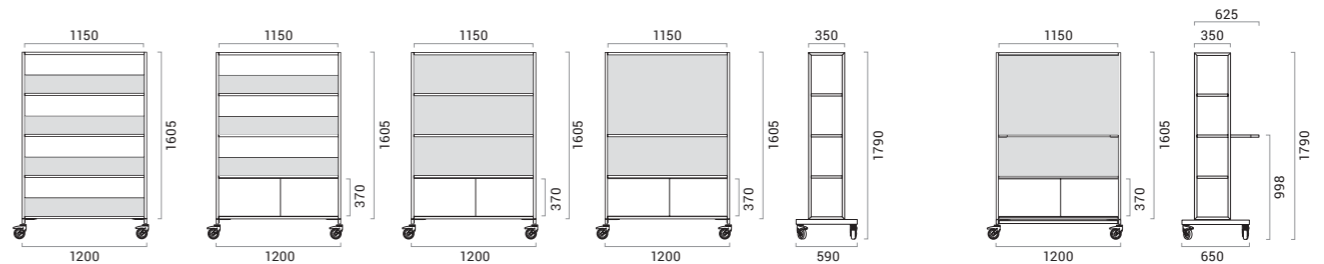

Power solutions

The cable tray and well-thought-out placement of the power socket and power cord outlet ensure that convenient access to electricity is maintained when changing the WORKLAB's location.

Make your workspace more dynamic

WORKLAB is a multifunctional piece of furniture that allows you to comfortably use a conference wall, whiteboard, temporary workplace, shelves or make a private space where it is needed the most. Combining all these functions creates a modern and dynamic environment where there is a flow between individual work and team work.

For user convenience and cosiness

Once you have customised the model that is right for you, you can also order a hook, shelf or side panels for additional functionality. Using these accessories, you will be able to conveniently store things or create more private spaces. They will also become playful design elements in the interior.

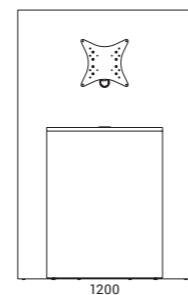

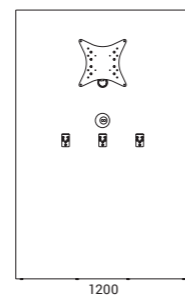

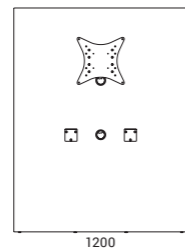

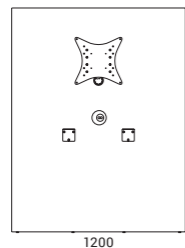

MEDIA

A smart solution
for meeting areas

It gives you an easy way to show presentations and to participate in video conferences and meetings. The conference wall can be attached to various types of meeting tables or high tables. You can also choose MEDIA wall with a power socket and with a cable port for wire management.

Architectural design

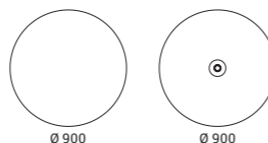

The main design element of the table is a sculptural cylindrical column resembling classical architecture.

132

Round tables for enjoyable work and conversations

This furniture brings people together and becomes an eye-catching interior accent in both formal and informal environments. Tables like these allow us to see and hear each other and actively share ideas and information.

Improving the acoustic environment

PET felt features acoustic properties. The porous surface absorbs sound, while the vertical cut-outs disperse some of the sound waves. We recommend combining these tables with the PARTHOS acoustic columns. This will ensure a better acoustic environment.

COMBUS

More than just a shelf

COMBUS is a modular shelving system that not only serves the function of a traditional shelf, but is also a good solution for shaping and dividing spaces. It consists of different types of shelving, which are designed to be placed in an open space, against a wall or on top of cabinets. The COMBUS collection has all the key features required to become an essential part of the modern office, where different types of spaces are intertwined – it is functional, has an easily adaptable design and is environmentally friendly.

154

155

Different options for different needs

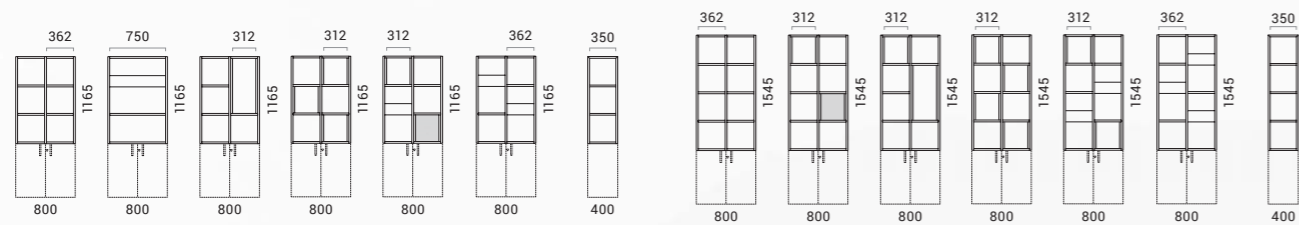

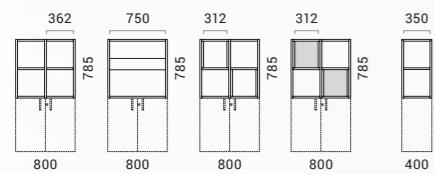

The COMBUS shelving system consists of freestanding shelving units, planter shelf units, shelving units for mounting on cabinets. This shelving system can be used in the middle of a space, against a wall or shaped as a corner.

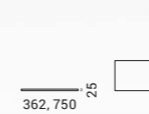

156

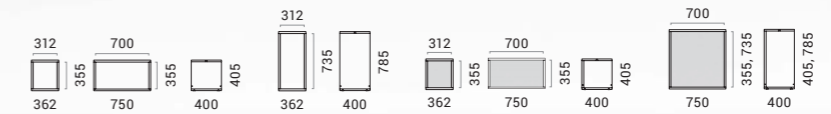

Shelving units for mounting on cabinets – ready-made configurations

Practical approach

One of the greatest advantages of CHOICE storage units is that they offer a convenient and practical internal layout.

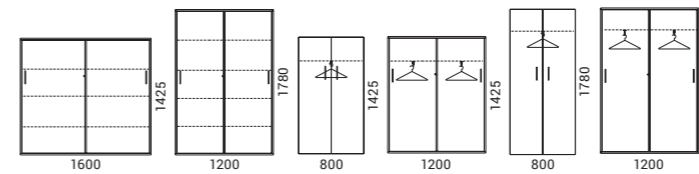

Endless combinations

You can easily create your own unique design by combining different cabinets. Also, a good idea is to combine different types of textures: tapestry, melamine and natural veneer. Choose from a wide range of materials and colors to create desired combinations that will blend nicely into your office.

164

CHOICE

CHOICE

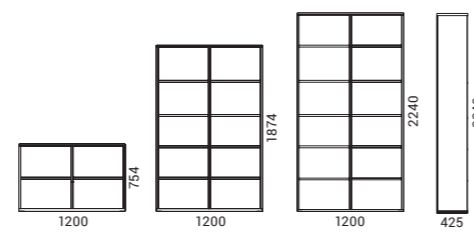

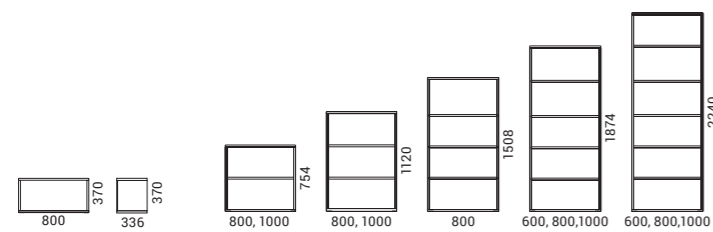

Well-organized storage of office materials

A large selection of accessories allow you to arrange the inside of the cabinets based on your individual needs.

168

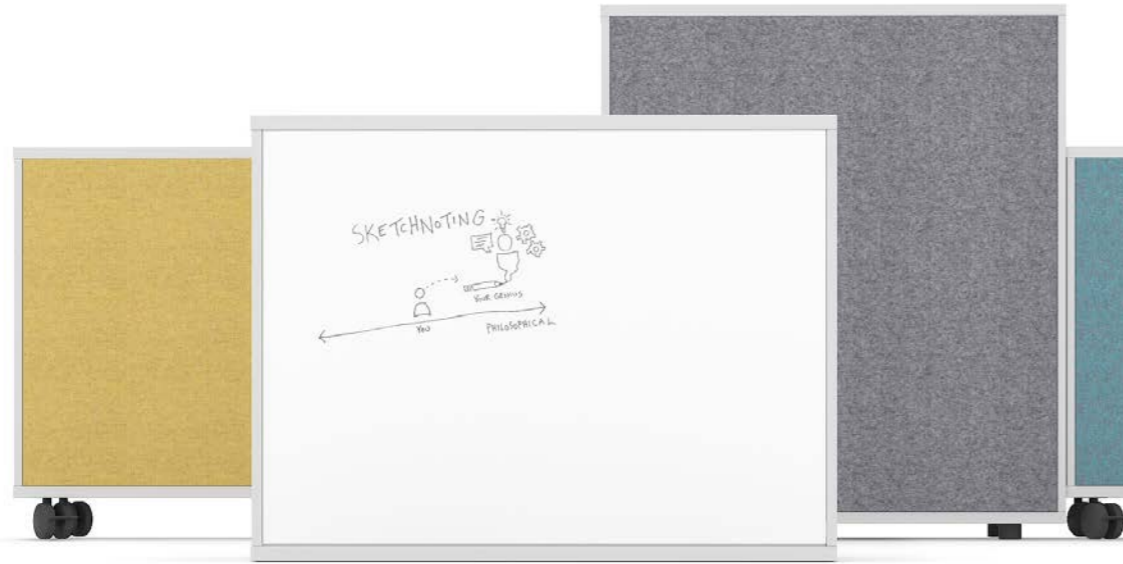

169

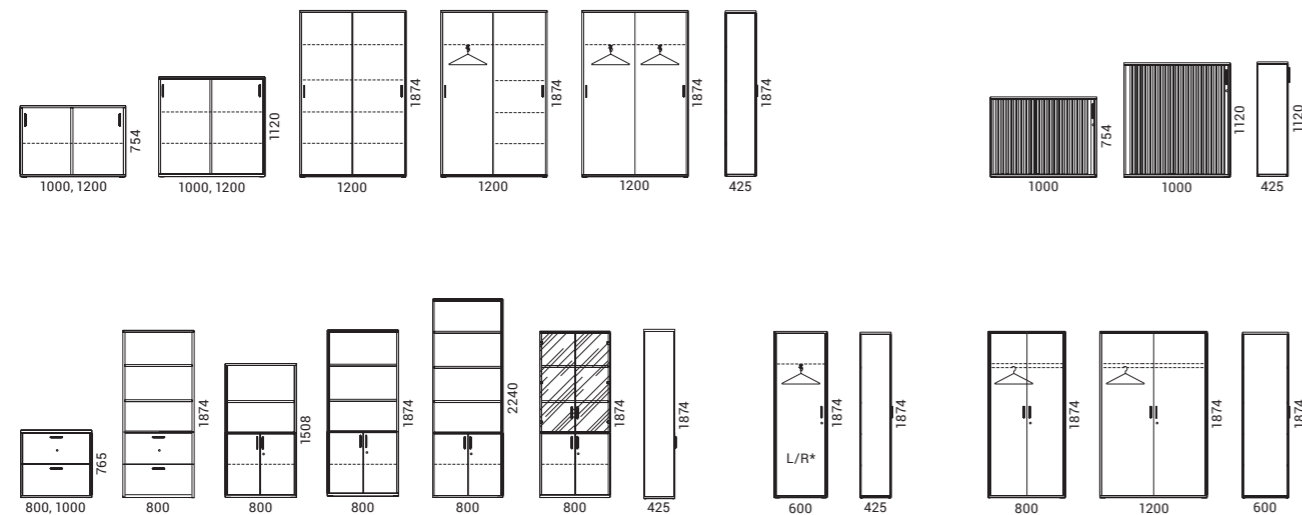

* - left/right

Colourful details

An upholstered back of the cabinet adds colour to your office space and absorbs noise. If you choose a cabinet with a special back suitable for writing on it, you will have an additional space to capture your ideas.

170

* - left/right

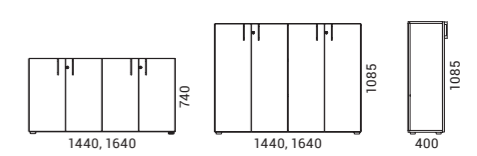

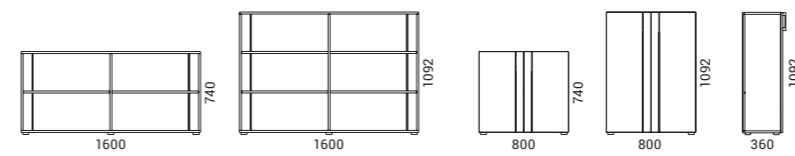

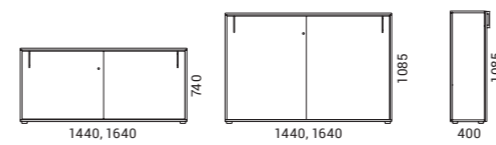

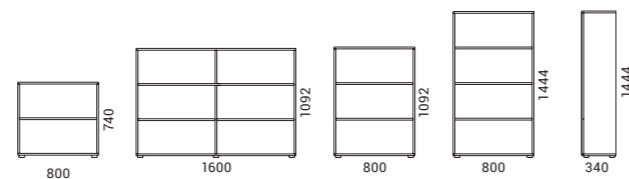

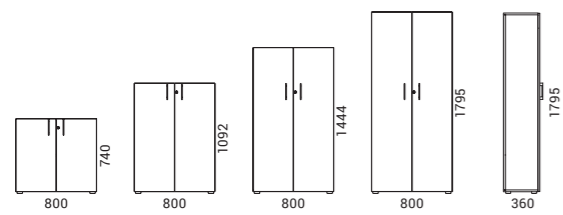

Wonderful simplicity

Simple and ergonomic solutions are ideal for setting up large office spaces and help to create a coherent interior style.

172

173

CABINETS & SHELVING

Adapted to desk height and depth

The height and depth of the cabinets match the bench desks available in the product line.

174

Decorative elements

Choose decorative Plexiglas inserts and handles for your cabinet to add a nice touch to it.

NOVA

BOXI

Minimalist style – unlimited possibilities

BOXI storage tower is a simple and universal solution designed to accommodate all office essentials for the daily needs in the office.

176

* - left/right

BOXI

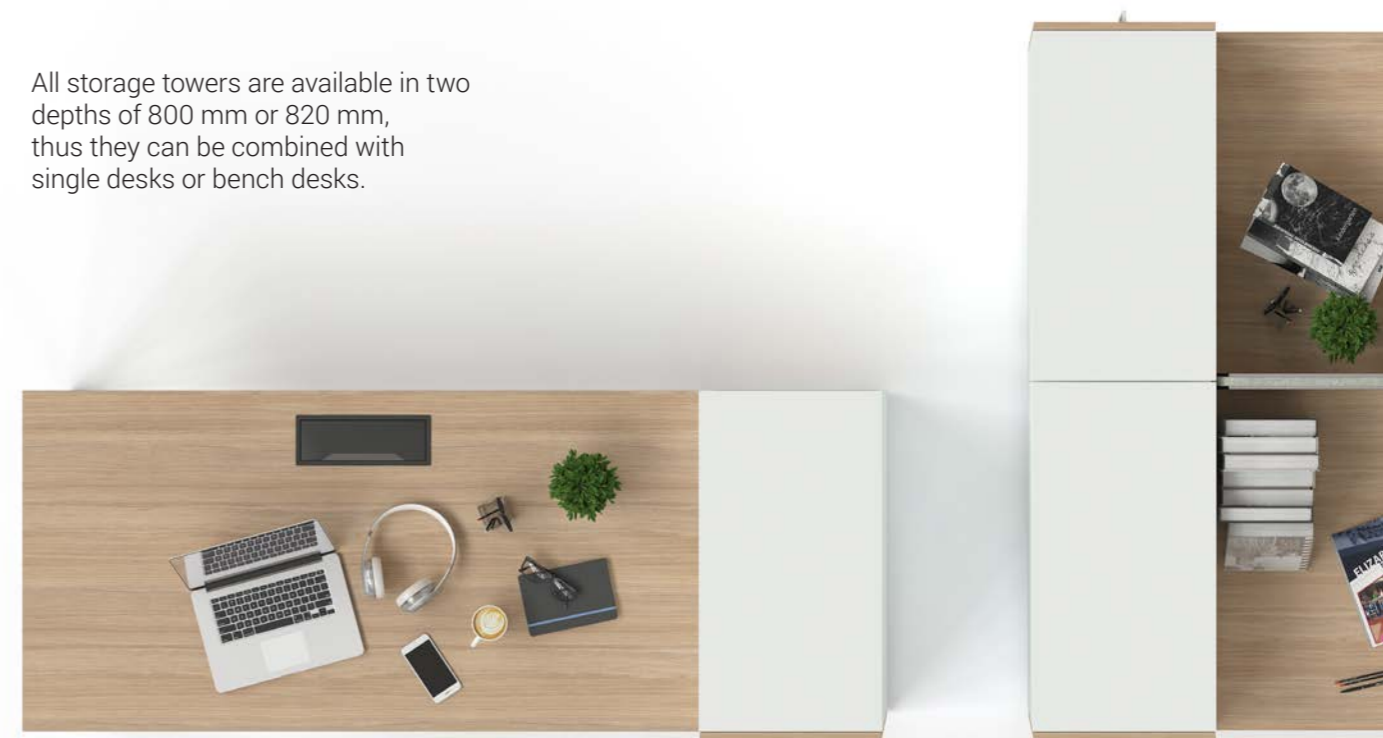

Flexible arrangement of work spaces

Choose a preferred tower height: a 740 mm storage tower can serve as an extension to a fixed-height desk, whereas 1090 mm or 1200 mm options will be a great addition to the sit-stand desks or can be used as a workspace divider. BOXI storage towers with shelves can have either right-hand or left-hand configuration thus they can be easily re-arranged if you decide to change the workspace layout.

177

All storage towers are available in two depths of 800 mm or 820 mm, thus they can be combined with single desks or bench desks.

BOXI

TOWERS

Make the most of
all available options

Choose spacious shelves or universal file drawers, small shelves with an upholstery lining or small drawers for storing small items. BOXI storage towers with USB or plug sockets will allow you to charge your mobile devices.

178

Visual versatility

Mix and match various melamine covers or use a planter box to transform the BOXI storage towers into green islands with flourishing greenery which will be a great way for employees to rest their eyes during a break.

BOXI

BOXI

Unlock your personal space

Modular lockers are a versatile solution for the secure storage of personal and office items, whether for temporary or all-day use. The CHOICE lockers are ideal for both mobile employees and those with a permanent workplace or office visitors.

180

Easily customisable modular system

Segments of lockers in different sizes and types will meet various needs, such as storage of both small and larger personal items and office supplies. Combine modules of the same height to create the combination you want. Choose from two available door heights and types – standard or with cut-outs for mail or air circulation.

Fulfilling individual needs

The CHOICE collection offers a wide array of cabinet types, from lockers of three different heights to cabinets with niches for hanging clothes or a short rest break. To complete your locker combination, you can choose planter boxes which are available in two different sizes. You can also choose the minimalist option with a top panel that will give lockers a harmonious look. Metal shelves, a name card holder, or a hook for clothes help create the most practical locker for each user.

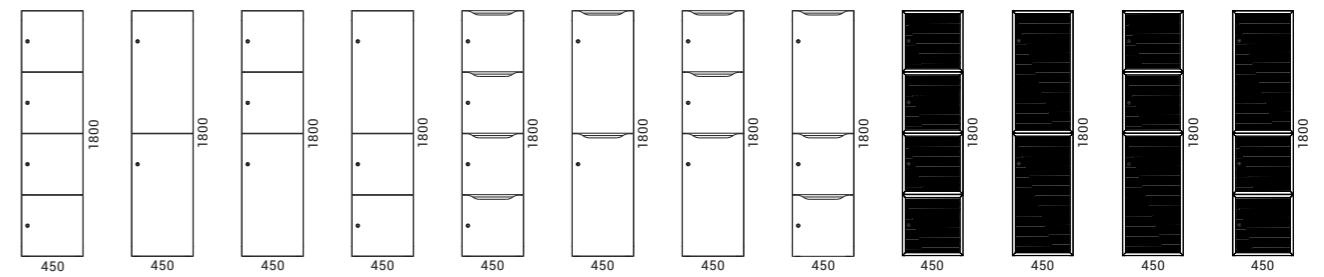

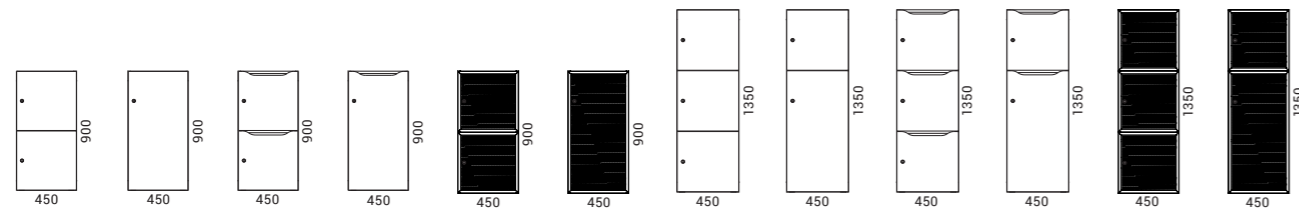

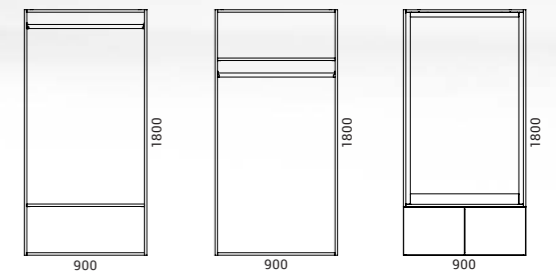

Everything you need to create your chosen image

Lockers are a great way to convey your company's image. Use different finishes (melamine, HPL, veneer or even perforated metal) and a wide range of colours to create your chosen image. These lockers can be customised in your company's corporate colours.

Four types of locks

In addition to traditional key-operated locks, we also offer combination locks and electronic locks. Lockers with electronic locks can be intended for personal use or temporary storage by several users.

L

XL

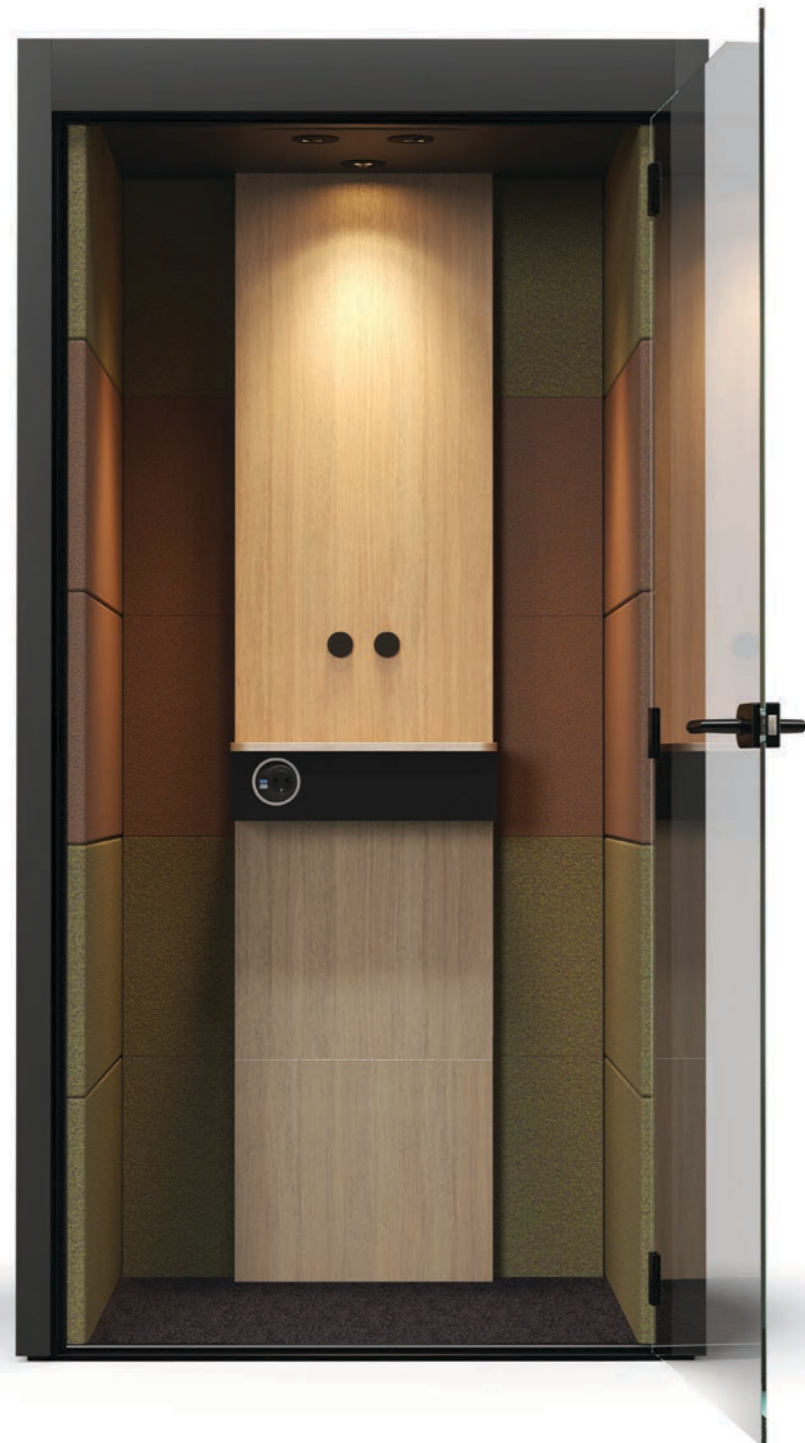

SILENT ROOM

SILENT ROOM

Less noise, less chaos

Multilayered SILENT ROOM wall structure, hermetic door and ceiling ensure sound insulation. The inner layer of the panels is made from high-class acoustic material that eliminates echo and has excellent sound absorption properties. The upholstered exteriors block out noise effectively and create an acoustically-optimized working environment.

194

SILENT ROOM

Creative freedom to customise your design

SILENT ROOM offers a variety of design options for you to be able to create a personalised design and desired office mood. The interior and exterior finish can be selected separately. Both melamine and upholstery can be used for the exterior panels.

195

SILENT ROOM

A powerful ventilation system installed at the floor level and in the ceiling of the SILENT ROOM acoustic pod efficiently removes excess heat and high levels of CO2 concentration. A smart control unit selects an optimal ventilation and illumination level, and, if necessary, allows for individual adjustment. Once an employee leaves the SILENT ROOM, intense ventilation is automatically activated to prepare the room for the next user.

ACOUSTIC PODS

SILENT ROOM is easily adapted to a variety of activities. The acoustic pods come in four different sizes with selectable options such as glass back-wall inserts, high or standard tables, seating, monitor holders, etc.

For users' convenience, the room can be equipped with a power outlet (USB type A and C connectors) or 3-plug power block. The power block can come with in-built sockets, LAN or USB ports in various configurations.

MODUS

204

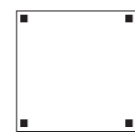

MODUS acoustic panels will improve your working environment and workplace well-being by absorbing background noise and by creating acoustically private spaces as well as bringing character to the interior space. The acoustic panel system includes wall panels, ceiling (horizontal) panels, and ceiling (vertical, double-sided) panels.

The panels come in different sizes, as large as 1200x1200mm, and are very easily joined together. The panels contain a special patented and certified material designed to efficiently absorb sound.

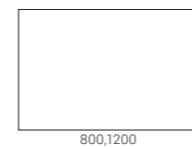

Double-sided (vertical) panels

Wall panels

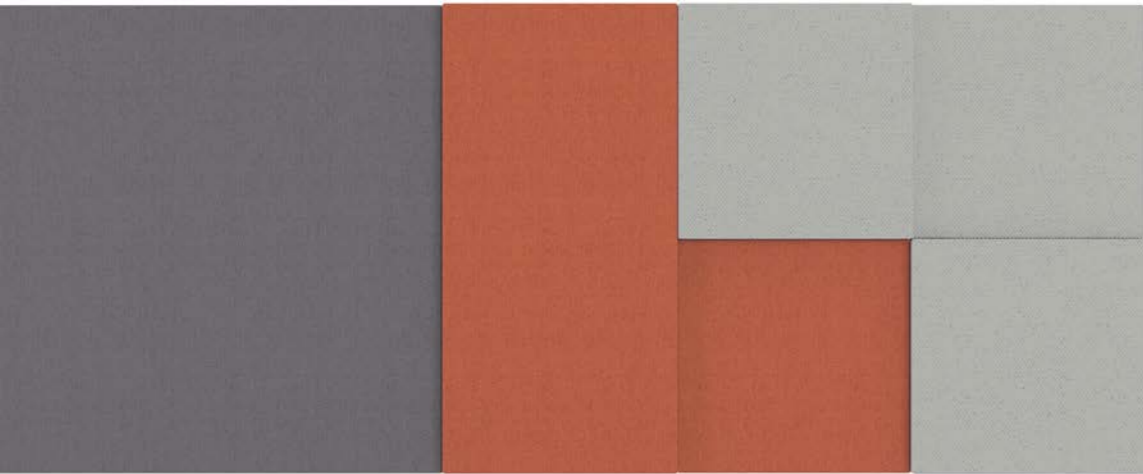

Ceiling (horizontal) panels

You can choose acoustic panels with different fabric colours on each side to create your own unique interior design. Select from from six different sizes and mix and match different panel depths (40 or 70 mm).

MODUS Light

206

Acoustic comfort in open-plan offices

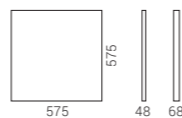

MODUS Light are lightweight, sound-absorbing wall and ceiling panels that improve office acoustics and serve as an inspiring and functional interior solution.

Panels are made of acoustic foam offering class A (for a 68 mm panel) or class C (for a 48 mm panel) sound absorption.

Thanks to their lightweight design, these acoustic panels are easy to transport and easy to install. MODUS Light are available in three design options: wall and ceiling panels, hanging panels, and Armstrong ceiling panels (integrated or hung on a wire rope). The panels have multiple different fitting options and can be attached to a number of surfaces, even glass.

Implement your creative ideas by using acoustic panels of three different sizes and two different depths. You can also choose from our wide range of fabrics and a variety of colour options.

For creating
a comfortable
workplace

The collection consists of PET felt free-standing desk screens and a PET felt basket.

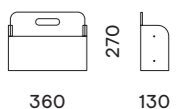

The PET felt free-standing desk screen is a mobile, compact and stylish acoustic accessory for temporary workplaces or noisy and distracting spaces that prevent concentration.

219

The design and colour range of PET felt baskets match PET felt free-standing desk screens. It is the perfect comprehensive solution for a functional and aesthetically pleasing temporary workplace with any type of desk.

ZEDO PET

Design by Paolo Pampanoni

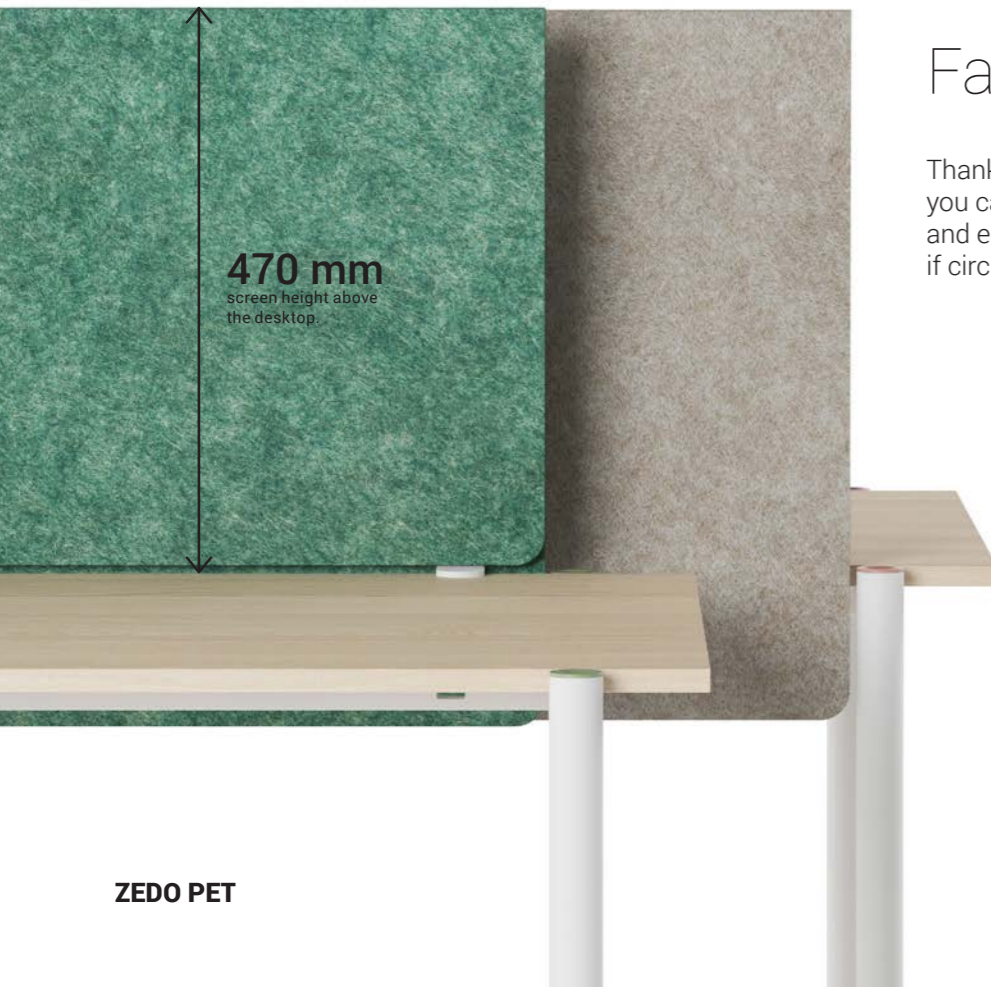

ZEDO PET are exclusive acoustic screens which are integral part of a modern, aesthetic and comfortable workplace.

Thoughtful design

Non-typical felt sheet bending totally hides its supporting structure, while the extended edge covers the cable tray and wires. This way a workplace looks neat and aesthetic.

220

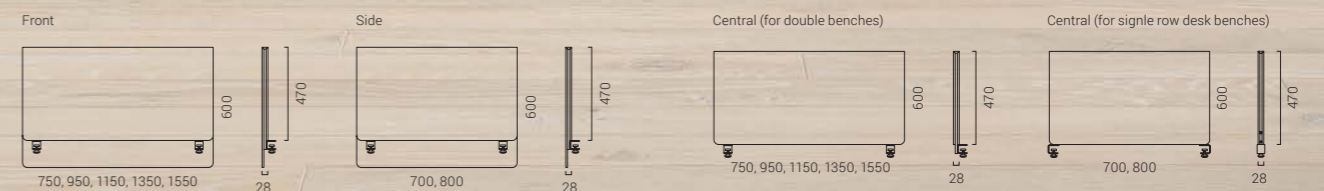

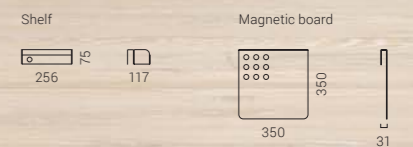

ZEDO PET

Fast assembly

Thanks to the ZEDO PET screen holders, you can assemble your screen quickly and easily, and disassemble and relocate if circumstances change.

Playful accessories

A magnetic board and a shelf for small objects or plants can be attached to the screen if necessary. Functional metal accessories echo the colour combinations of the ZEDO desk system. Distinctive accessories add a unique and playful touch to your workplace. Also, they are a very suitable tool to personalize your workplace.

ZEDO PET

ROUND PET

A sustainable solution for acoustic comfort and privacy

ROUND PET acoustic desk screens are an excellent solution to ensure a greater level of privacy and acoustic comfort for employees, while at the same time giving them sufficient freedom to share their ideas with other team members. The product encourages circular economy as it is made from recycled materials and it is also suitable for recycling.

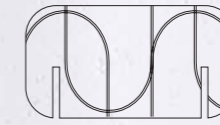

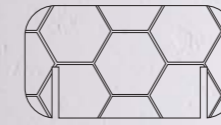

222
530 mm
screen height above the desktop.

PET felt features

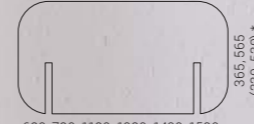

This sustainable material possesses excellent sound absorption properties. PET felt is soft and light, yet strong and durable material is ideal for desk screens. Due to the structure PET felt can be easily cleaned and disinfected.

DESK 760

Acoustic comfort and privacy at the workplace

TOP 530 acoustic desk screens add privacy to your workplace and absorb background office noise. This solution enables employees to better focus on their tasks yet still allows communication and doesn't separate team members from one another. The system offers screens to cover all sides of the desk.

Because of the sound-absorbing material TOP 530 acoustic desk screens have a class C rating for sound absorption. The screens are perfect for both single desks and bench desks and come in a variety of colours and materials to match any interior.

230

Wide range
of functional
applications

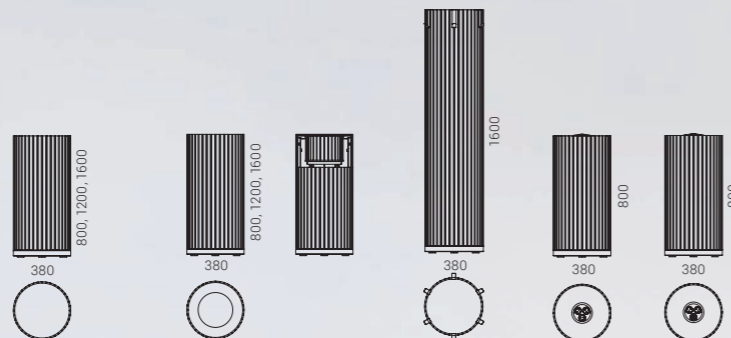

The PARTHOS collection consists of four types of acoustic columns. By combining them with different NARBUTAS acoustic solutions, you can create acoustic comfort and a stylish environment for your employees.

232

Ensured
acoustic
features

PARTHOS ensures that high-, medium- and low-frequency sounds are attenuated. It is covered with PET felt, which is porous and enhances these properties. The choice of pattern also contributes to the improvement of acoustics by dispersing some of the sound waves.

233

Sustainable
design

For the filling of the acoustic columns, we used textile offcuts left over from the manufacturing process. The acoustic columns are covered with PET felt made from more than 50% recycled plastic.

JAZZ Silent Box

Design by Christina Strand and Niels Hvass

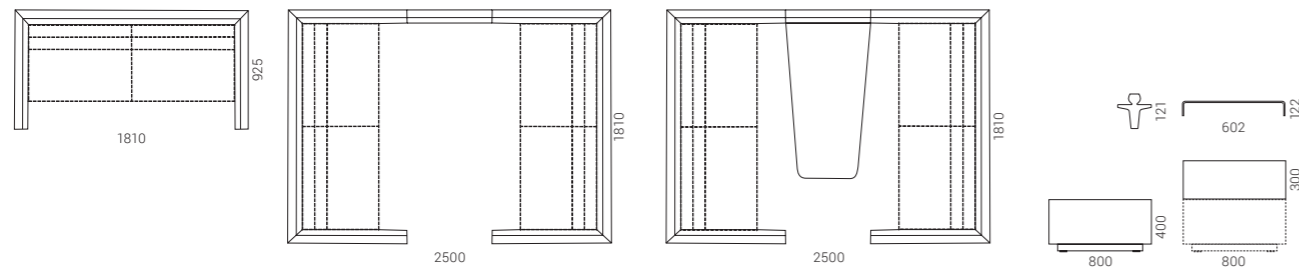

> 386
LOUNGE
& SOFT
FURNITURE

236

A private and quiet space for meetings

JAZZ Silent Box is a quiet place of retreat in your office environment designed for meetings, brainstorming, individual work or relaxation. JAZZ Silent Box is made of special sound-absorbing material which delivers class D sound absorption.

JAZZ Silent Box

Silent Box option with a table and a monitor holder will enable you to work on your computer conveniently and to display visual information on the screen during meetings. The furniture can also be equipped with a power outlet and a USB connection.

JAZZ Silent Box

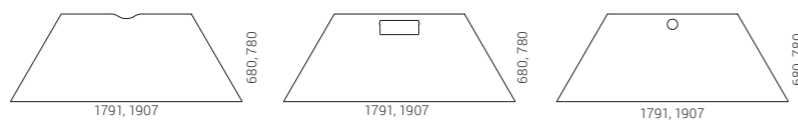

Choose the acoustic walls of JAZZ Silent Box without the integrated soft furniture or table. Place your own customized combination of furniture within the acoustically pleasant and private environment of JAZZ Silent Box.

MY SPACE

Create your space with MY SPACE

From private mini-rooms for concentration to collaboration areas for teamwork, this system provides a comfortable workplace, allows you to distance yourself from ambient noise, and opens up new "office-within-office" possibilities.

240

Proven acoustic characteristics

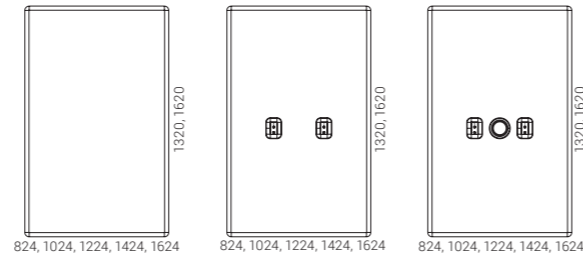

MY SPACE is a great choice to reduce the overall noise level of the office as the acoustic screens are filled with a special sound-absorbing foam and covered with upholstery of your choice.

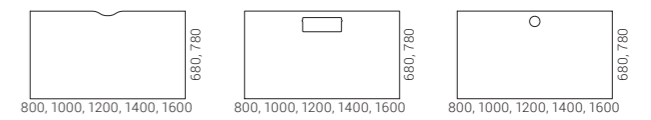

Make your office stand out

Different size and shape desktops make MY SPACE a flexible solution for almost any working environment while height-adjustment function helps create a convenient workplace for individual tasks.

Thanks to the modular construction, this acoustic furniture allows you to electrify up to 6 workplaces with a single power socket. MY SPACE is available with a 3 socket power unit that can be used for standard power supply, USB, or LAN connection in different configurations.

You can choose different interior and exterior colors for MY SPACE screens. Use your desired color combinations to create individual spaces or group workspaces.

ARCIPELAGO Wood

Design by Baldanzi & Novelli designers

> 380
LOUNGE
& SOFT
FURNITURE

Escape busy office environment

ARCIPELAGO Wood lounge seating is ideal for creating an enclosed "room within a room" in open-plan offices. It serves as a meeting and work space where you can isolate yourself from ambient noise. This lounge seating is ideal for multiple uses: brief tasks or longer work sessions, meetings, teamwork or relaxation.

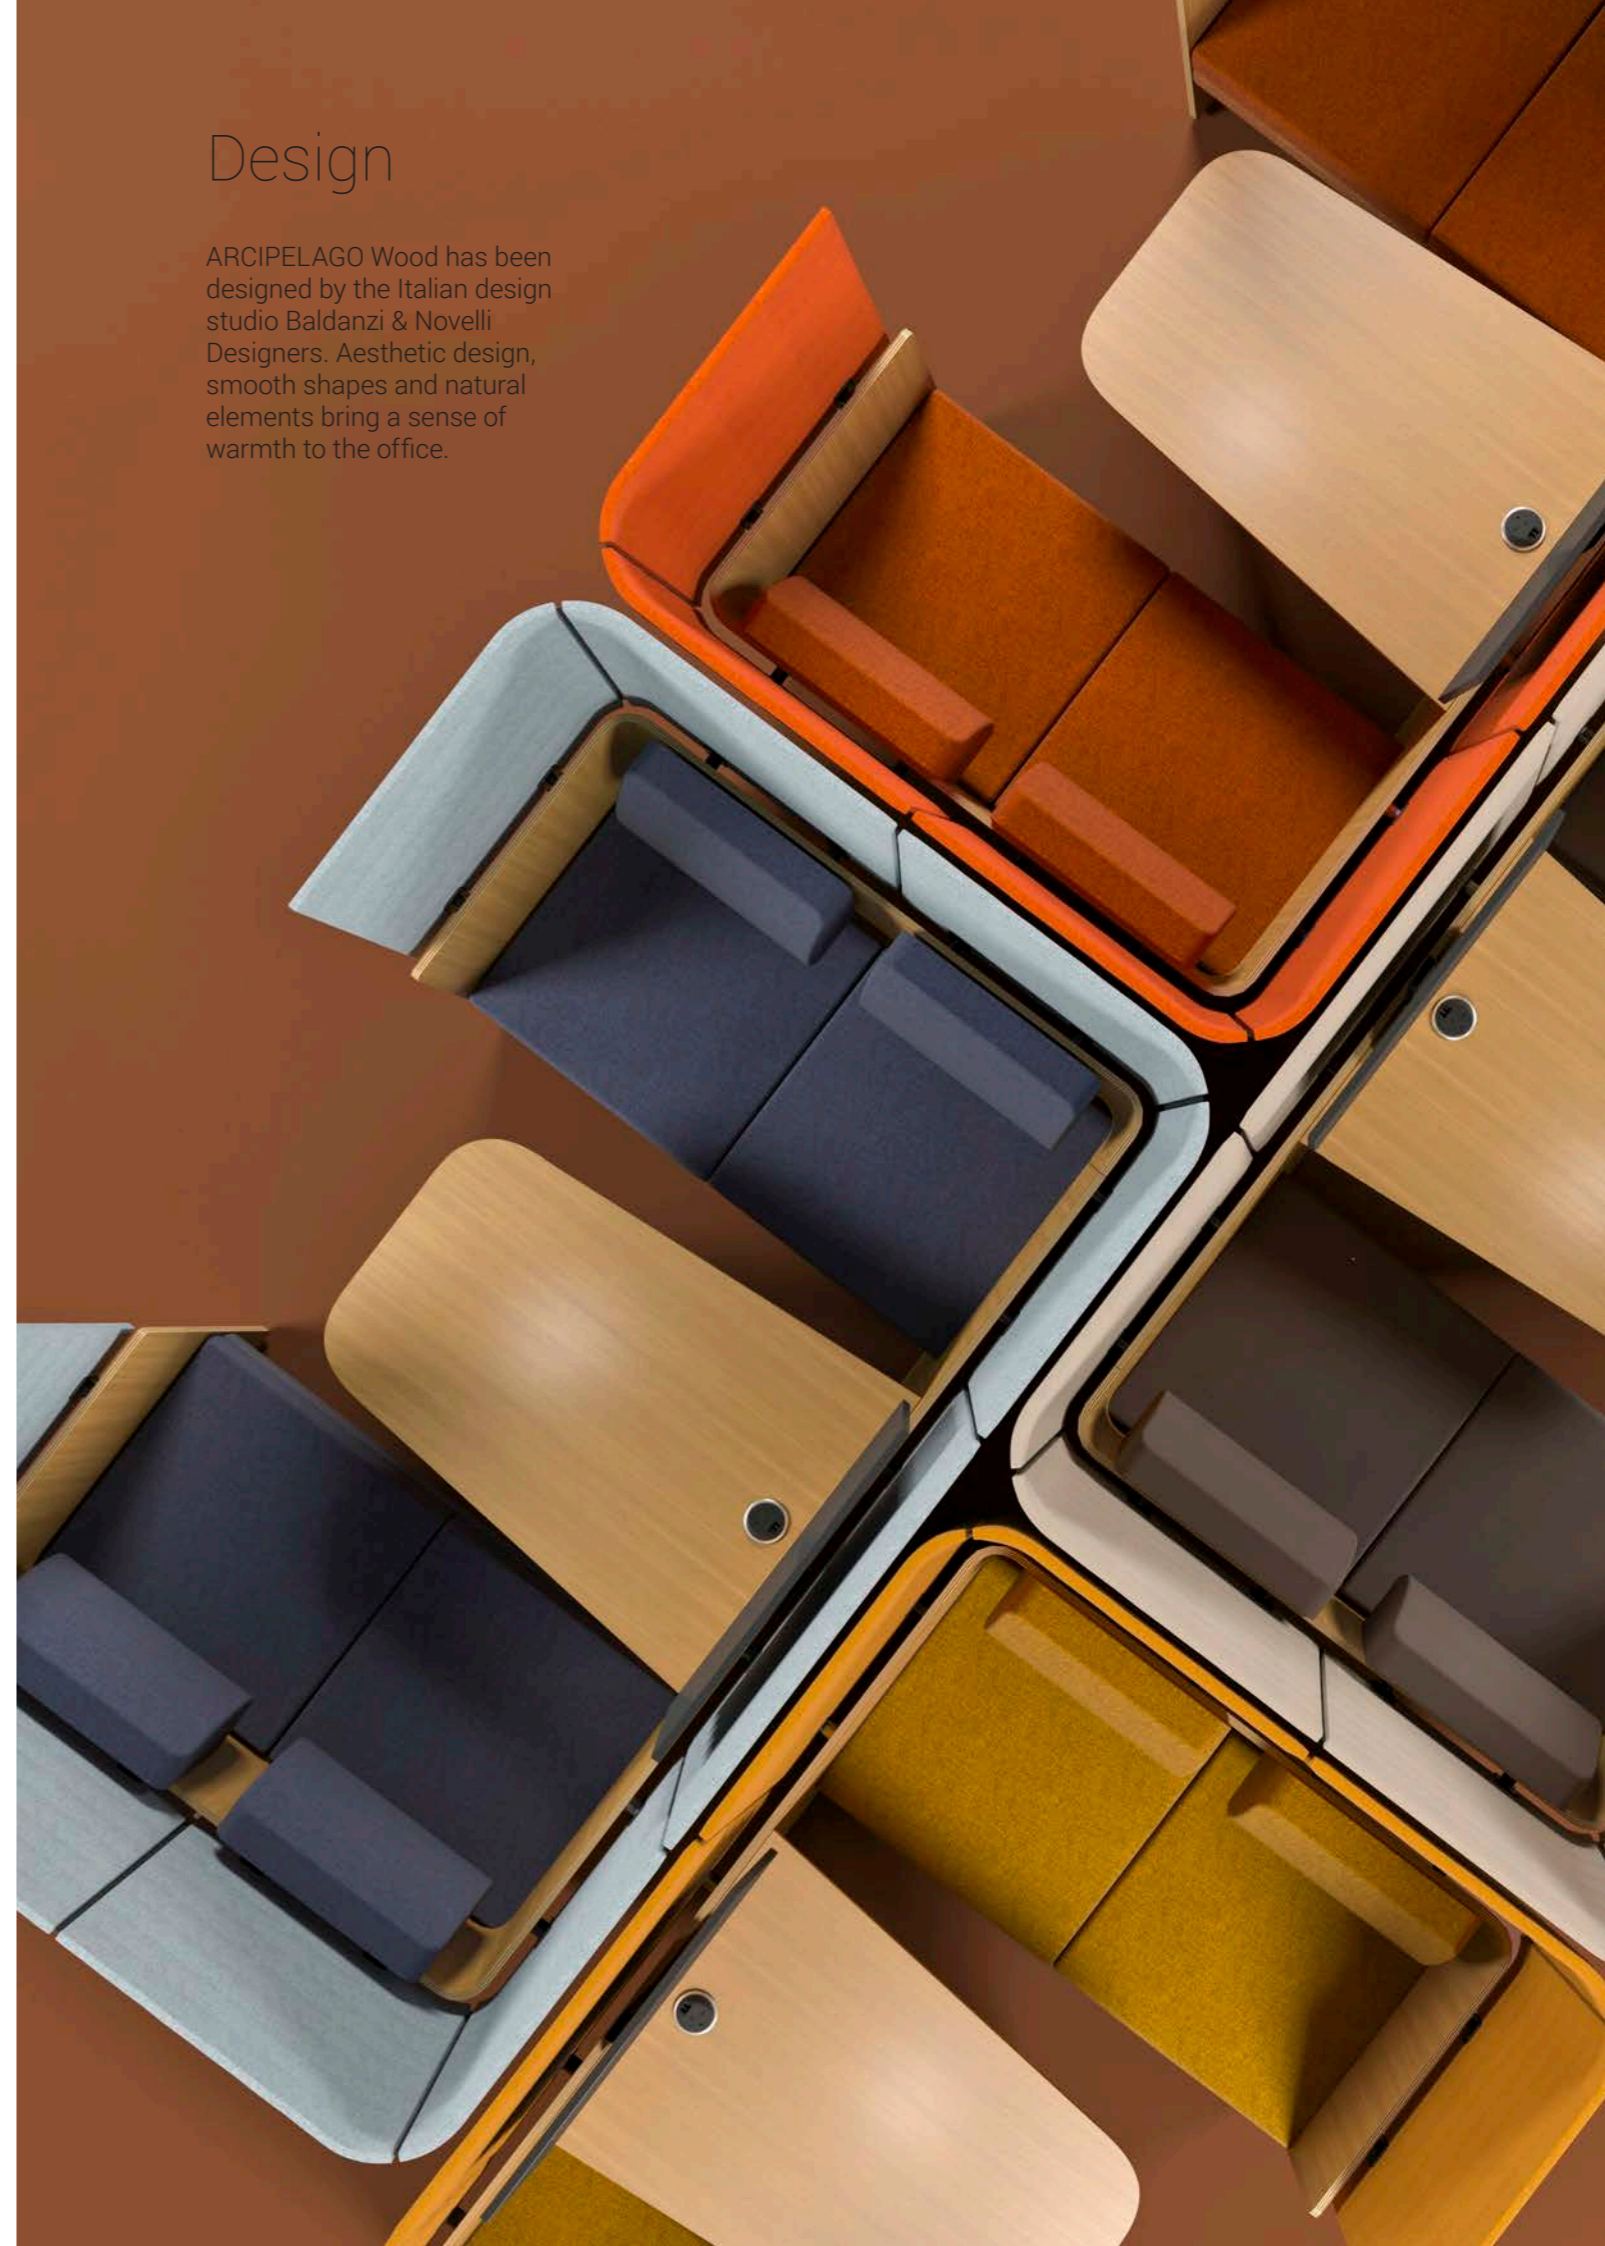

246

ARCIPELAGO Wood

Design

ARCIPELAGO Wood has been designed by the Italian design studio Baldanzi & Novelli Designers. Aesthetic design, smooth shapes and natural elements bring a sense of warmth to the office.

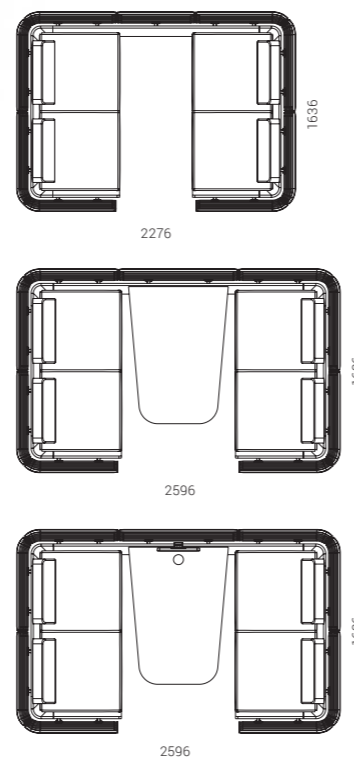

Functionality

The seating unit can accommodate a monitor screen for convenient presentation of information during business meetings. The table is equipped with a power socket with integrated USB type A and C connectors for any work devices to make sure you never run out of energy.

249

Comfort

Baldanzi & Novelli Designers who created ARCIPELAGO Wood compares this piece of furniture to an island which offers a natural retreat. ARCIPELAGO Wood high panels serve as barriers shielding employees from background noise while comfortable seating creates a laid-back and private environment.

Exceptionally cosy
design embracing
office spaces

A well-designed and comfortable office chair is among the key elements contributing to a cosy office environment by prioritising the physical well-being and satisfaction of employees. OFY is a wide collection of chairs with an exceptionally cosy design that meets the needs of a modern employee in different office spaces. It consists of executive chairs, traditional and low-back task chairs and visitor chairs with a pyramid-shaped base with glides or castors.

254

OFY

“

OFY stands for 'Only For You'. When designing the chair, we tried to ensure that it could be used by different companies in different architectural spaces and that each employee could have 'their own' chair.

Alegre Design

TASK CHAIRS

Armrests with different designs and functionalities

A broad selection of armrests will make it easy to find the right solution for different workspaces. The two types of non-adjustable armrests have a graceful and elegant design. If you want to be able to adjust the armchairs to find the most comfortable position for your arms, you can choose between 1D (moves up/down) and 3D (moves up/down, forwards and backwards, sideways up to 30°) adjustable armrests.

CHAIRS

“

We felt the need to give this product a decisive character – an element defining its identity. Thus, we came up with an idea to create a back support made from a transparent and flexible material and to make it an anthropomorphic shape instead of a technical shape which would be pleasing to the eye and as clear as the wind blowing onto the sails of a ship or making leaves tremble.

Baldanzi & Novelli Designers

266

WIND family of chairs offers a combination of ergonomic features, functionality and unique design. Task chairs, high swivel chairs and visitor chairs designed for dynamic and efficient work and collaborative use are ideally suited for modern office spaces characterized by a unifying and unique WIND design.

268

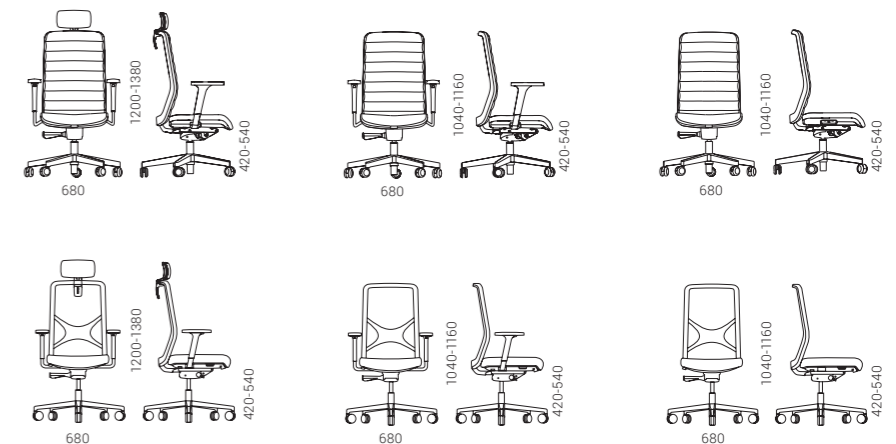

WIND

Unique lumbar support

WIND has an instantly recognizable X-shape transparent lumbar support uniquely designed to enhance the chair's visual appeal and serve a very important function. Its height can be adjusted and it conforms to the user's lumbar shape due to the elastic properties of silicone to provide exceptional comfort.

269

WIND

3 types of
backrests

The backrest with a flexible mesh easily adapts to the natural shape of the user's spine. The aesthetic breathable mesh material ensures all-day comfort, no matter what seating position you use.

Micro-mesh

The mesh features a unique 3D structure which gives this chair a dynamic and distinctive look. This eye-catching and breathable fabric allows free circulation of air and helps prevent overheating. The soft and lightweight mesh adapts to the user's lumbar shape in order to keep the user comfortable throughout the day.

Runner mesh

The upholstered backrest is shaped with the principles of ergonomic seating in mind to ensure maximum workplace comfort. Its polyurethane insert with uniquely designed horizontal seams on both sides gives a totally different character to the chair. The backrest comes in a variety of upholstery options.

Fabric / leather look

Choose a backrest with a unique knitted mesh created by an Italian design studio Baldanzi & Novelli designers. The mesh design pattern follows the X shape to further enhance the lumbar support that creates the WIND chair's identity. The knitted mesh is made using cutting-edge technology which allows us to manufacture chairs with seamless backrest corners so no scrap material is left behind.

Knitted-mesh

Simple and intuitive
adjustments

WIND encourages an ergonomically correct sitting position and provides the functionality you need. Thanks to its simple and intuitive adjustment, the chair can be easily adapted to individual user needs and offers maximum comfort for long stints at the desk.

CHAIRS

SYNERGY
S49

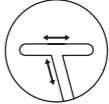

Graceful style work chair

The chair's name EVA is a female name derived from the Hebrew name, meaning "life", may also have the meaning "lively". This is exactly what this task chair is, whose graceful shape is emphasized by the integrity of the backrest and seat.

The EVA task chair has a tilting mechanism, it means that the backrest and the seat are connected, and when the backrest is reclined, the whole chair tilts. For the convenience of the user, the backrest can be locked in four different positions.

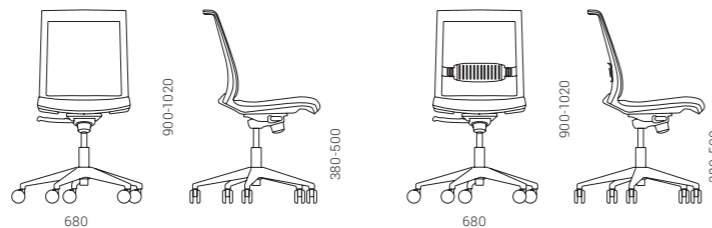

-  TILT MECHANISM

WOBBY

Your best office partner

The WOBBY pivoting stool is a great choice for those looking for healthier sitting alternatives. It is a perfect active sitting solution for dynamic work and cooperation areas. The upper part of the stool swings and moves together with its user, so it can also be used as a support when standing. This allows you to change the position of the body at the workplace throughout the day without distracting from important tasks. Due to its modern and sleek design, this balance chair will fit into any contemporary office space.

Unique pivoting system

The distinctive feature of this chair is its unique pivoting system, hidden inside an elegant black plastic base. With the help of this system, the seat can be tilted up to 8 degrees in all directions and rotated 360 degree.

Easily adjusted and safe

A pneumatic lift mechanism lets you fine-tune the perfect level for different work surface heights. Adjustable seat height range from 600 mm to 850 mm, so you can smoothly adjust from sit to stand position in seconds by using an elegant brown leather strap. Having a non-skid surface, the base of the stool will always remain stable, while the high-quality materials will ensure safe and long-lasting use.

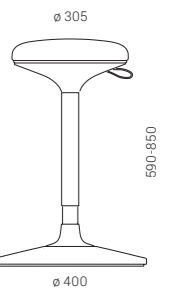

288

WOBBY

289

WOBBY

Significant functionality

The WOBBY pivoting stool can be easily fit with to height-adjustable desks, as well as high, or conference tables. Due to its compact size, this chair is also perfect for different size SILENT ROOM acoustic rooms or small meeting rooms. The seat of the stool is made of polyurethane and can be upholstered in a wide selection of fabric, genuine leather, and leather look.

Dynamic and flexible work setting

The standards of ergonomic in modern office spaces are constantly changing, just as our understanding as to what work environment is best for the performance and well-being of office workers. One thing is clear: it is important to change one's body posture throughout the day and avoid staying in the same position for extended periods of time. WIND high task chair is great because it can be easily adapted to a variety of work settings, whether it is a sit-stand desk, a high desk or reception furniture.

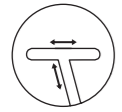

Keeping you comfortable and safe

With their soft, comfortably shaped seat and ergonomically designed mesh backrest, WIND chairs are comfortable to sit on even for long periods of time. Ring-shaped adjustable-height leg rest allows you to adjust the chair to your height, maintain a correct seating position and avoid unpleasant back and neck pain. The castors will provide extra safety and stability as they will be locked in place while you sit.

Concept inspired
by the resimercial
design trend

People want their workplace to feel like home, which is why resimercial design, combining two concepts: residential and commercial, is becoming popular in offices. OFY successfully bridges this gap and creates a cosy environment that responds to changing workplace design preferences and improves the overall well-being and productivity of employees. With its delicate, soft shapes, cosy upholstery and excellent ergonomic qualities, the chair collection perfectly reflects this trend.

EXECUTIVE CHAIRS

Meeting the most important ergonomic needs

Recognisable
collection thanks
to its unique
backrest frame

All chairs in the OFY collection share a sculptural backrest frame that seems to embrace the chair from behind. This makes them easy to mix and match in different spaces while maintaining a consistent style. The frame of the OFY chair comes in two colours: black and grey. It can be paired with a base of the same colour, along with integrated or fixed armrests boasting a graceful and elegant design.

310

OFY

Prioritising health
and comfort

Although we usually spend less time in visitor chairs than in task chairs, we made sure that you will be just as comfortable when you do. The OFY visitor and conference chairs have a built-in tilt mechanism that allows the user to sway gently and feel more relaxed.

311

OFY

The chair that flows through any space

Available in three heights, the chairs can be mixed and matched in a variety of workspaces and meeting spaces. The OFY chairs are ideal for team workplaces in open-plan offices, as well as in smaller, boutique-style offices and executive workspaces.

Different features
for different needs

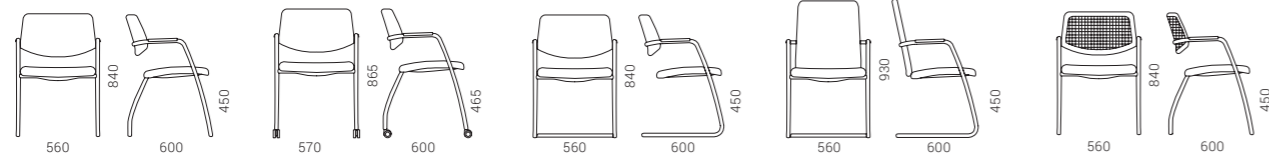

There are three different steel bases available for GAMA chair system: a traditional 4-leg base, a cantilever frame base, and a 4-leg base with castors for an easier movement in spaces. All bases can be either chromed or powder-coated (metallic or black).

The backrest of the chair can be upholstered with either fabric or mesh.

Being stackable, (up to 6 chairs) these chairs are easy to transport and can optimize the room space.

STACKABLE

These Scandinavian design chairs are a perfect fit for high tables in the lounge, cafeteria, or collaboration areas. With their appealing look, they will get employees together for lunch, coffee break, or for an informal meeting. The ergonomically shaped curves in both the seat and backrest give users extra comfort. You can select different colour combinations for the upholstered part of the chair and choose either metal or wooden legs. Contrasting colours will bring a sense of exclusivity to your TWIST&SIT furniture.

CANNIE

Design by S.I. Design

Simplicity is
comfort

The CANNIE collection of stools combines high-quality materials into a simple yet playful design that is easily adaptable to different interiors. CANNIE may look like a simple stool, but it is guaranteed to offer high quality and comfort to its users. One of the key elements that create a feeling of comfort is the seat, made of soft polyurethane. And when sitting on a high or medium high stool, you can place your feet comfortably on the footrest.

350

351

Wide range of
applications

The collection consists of stools in three heights. CANNIE stools of different heights can be used in office collaborative or meeting spaces, an office kitchen as well as in public spaces.

TABLES

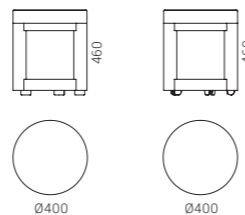

> 140
OCCASIONAL
TABLES

388

Designed for
maximum comfort

The compact poufs can be easily tucked under the coffee table and pulled out again to create a pleasant place to sit. The niche in the pouf is ideal for temporarily storing small items or simply a handbag during a meeting.

Modern and
light design

The niche under the seat of the pouf not only provides additional functionality and storage for small items but also helps to maintain the unity of the design language throughout the ZooZoo collection.

A true colour pallet
at your office

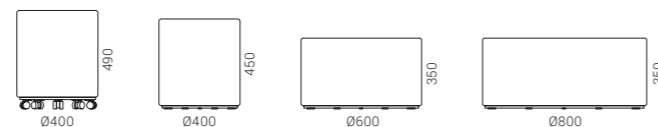

GIRO pouf system is a great way to liven up any office environment and create the desired mood by choosing matching or contrasting colours. A wide selection of fabric, leather look and genuine leather is available for this pouf system upholstery. Small, lightweight, and mobile GIRO can be effortlessly rearranged in space.

390

Customizable design

Variation of three different diameters and three different heights allows the user to choose the one that best suits their needs - it can be used both for sitting at a colleague's workplace or placed in the waiting and lounge areas. There are 2 base options available for GIRO system - with plastic glides or castors. Choosing plastic supports will create a more tidy office look while choosing castors will allow you to move the furniture around without much effort.

“

My goal was to update the executive area and the related furnishing elements, by maintaining the representative importance, but conferring it with lightness and dynamism.

Orlandini Design

ARQUS

Modern luxury design

ARQUS executive furniture has a modern aesthetic that appeals for its simplicity and elegance. The sturdy structure of the metal table legs is a distinctive design element that adds a sense of lightness, longevity, and durability to the piece of furniture.

The sleek, subtly rounded shapes and lines of ARQUS are reflected in every part of the furniture – in the shape of the legs, the chamfers of the tabletop or cabinets. All the details come together to create a flawless design.

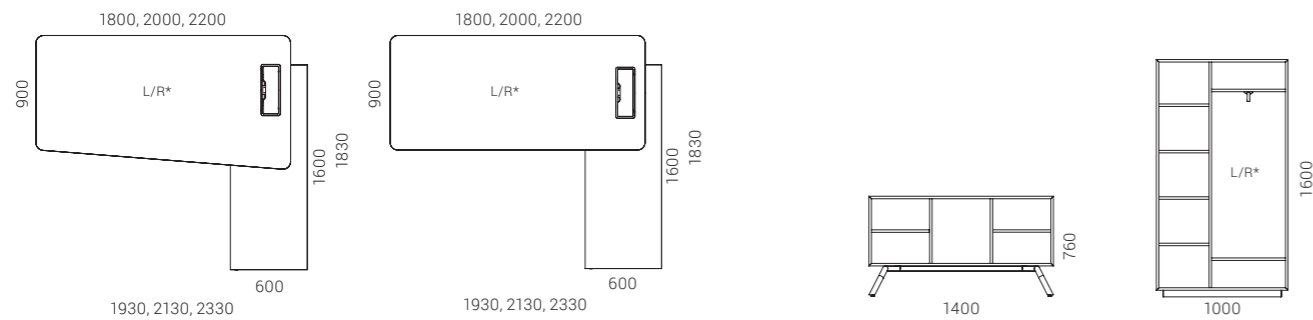

Convenient storage solutions

A fixed pedestal to the left or right of the desk allows you to free up desk space for work. In addition, you can store your valuables in a lockable drawer.

A wardrobe is spacious enough to comfortably accommodate the outerwear of the manager as well as that of meeting participants.

A free-standing cabinet with two doors provides an additional storage space.

404

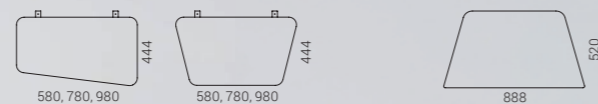

* - left/right

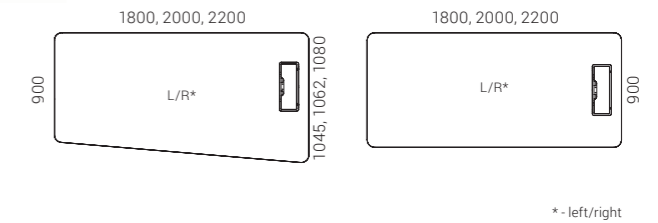

Accessories to complete the collection

You can use a modesty panel to enhance your privacy and create a sense of personal space. A leather table mat provides a smooth and comfortable writing surface and enhances the tactile experience when writing or using a computer mouse.

Desktops in two shapes

Large desktops are designed for convenient storage of personal items and work tools within easy reach. You can also choose a desk with a regular rectangular desktop or an asymmetrical option with a desktop tapering to the left or right.

Well-thought-out power solutions

Thoughtful power solutions will allow you to have a comfortable place to work or hold meetings. Executive desks have built-in power socket blocks.

EXECUTIVE
FURNITURE

Modern luxury
with character

The ARQUS collection consists of desks, meeting tables, wardrobes and cabinets. By using different pieces of furniture united by design elements, you can create a stylistically unified and harmonious executive work environment.

ARQUS

MOVE&LEAD

Design by Gediminas Juška

“

Move! is a slogan of the modern man that represents the victory of mobility against stagnation, sloth and succumbing to negativity. A true modern leader is driven and open to innovation, a cosmopolitan dictating healthy lifestyle and a teacher who shapes his or her environment with dignity.

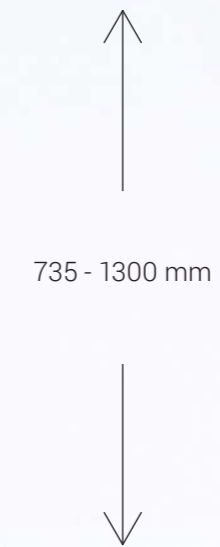

Gediminas Juška

Every detail matters

MOVE&LEAD is a top-quality product which stands out for its uncompromising standards of excellence in craftsmanship. Curved wooden surfaces are shaped employing traditional manufacturing methods and following highest quality standards. Parts of different materials are joined together with every detail in mind.

Your best move!

It combines the best in ergonomics and cutting-edge technology and is designed for modern active leaders. The desk's height can be adjusted between 740 mm and 1300 mm, this allows you to stay on the move and be active even at your desk.

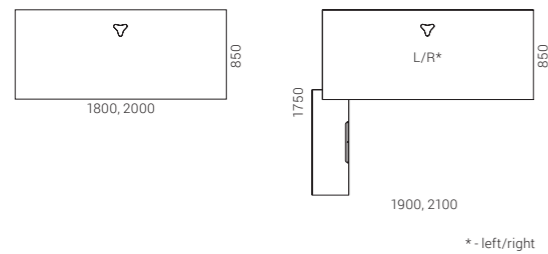

**EXECUTIVE
FURNITURE**

Minimalism is
the new luxury

Clean, elegant lines, smooth transitions and subtle combinations of materials are guaranteed to make a strong visual impact in any office. HPL Fenix finish, natural oak, ash or walnut veneer and polished stainless steel surfaces form a harmonious whole and create a sense of subtle luxury.

412

Declutter your
workplace

The hidden wires can be accessed by opening an elegant minimalist lid. Wires and cables are routed through a subtle triangular-shaped hole with an original cover in a colour that matches that of the desktop or natural wood. MOVE&LEAD desk also has an in-built best-in-class Qi wireless charger (15W) for your smart devices.

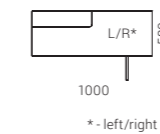

MOVE&LEAD

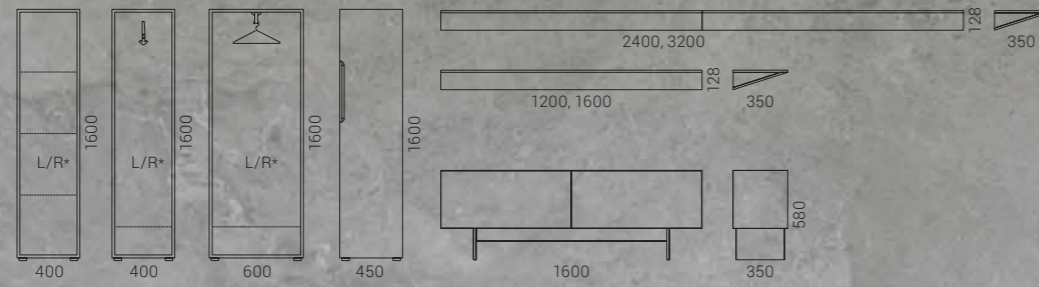

Everything you need

Besides fixed-height or height-adjustable desks, MOVE&LEAD executive furniture system also includes storage solutions to keep your office essentials and personal belongings close at hand. The desk cabinet drawers with special inserts will ensure a well-organised workspace.

413

EXECUTIVE
FURNITURE

* - left/right

MOTION Executive

> 36
SIT-STAND
DESKS

Modern desk for
an active leader

MOTION Executive is a system of electric height adjustable desks, designed for a workplace of a dynamic leader. This desk is a combination of modern elegance and thoughtful functionality.

416

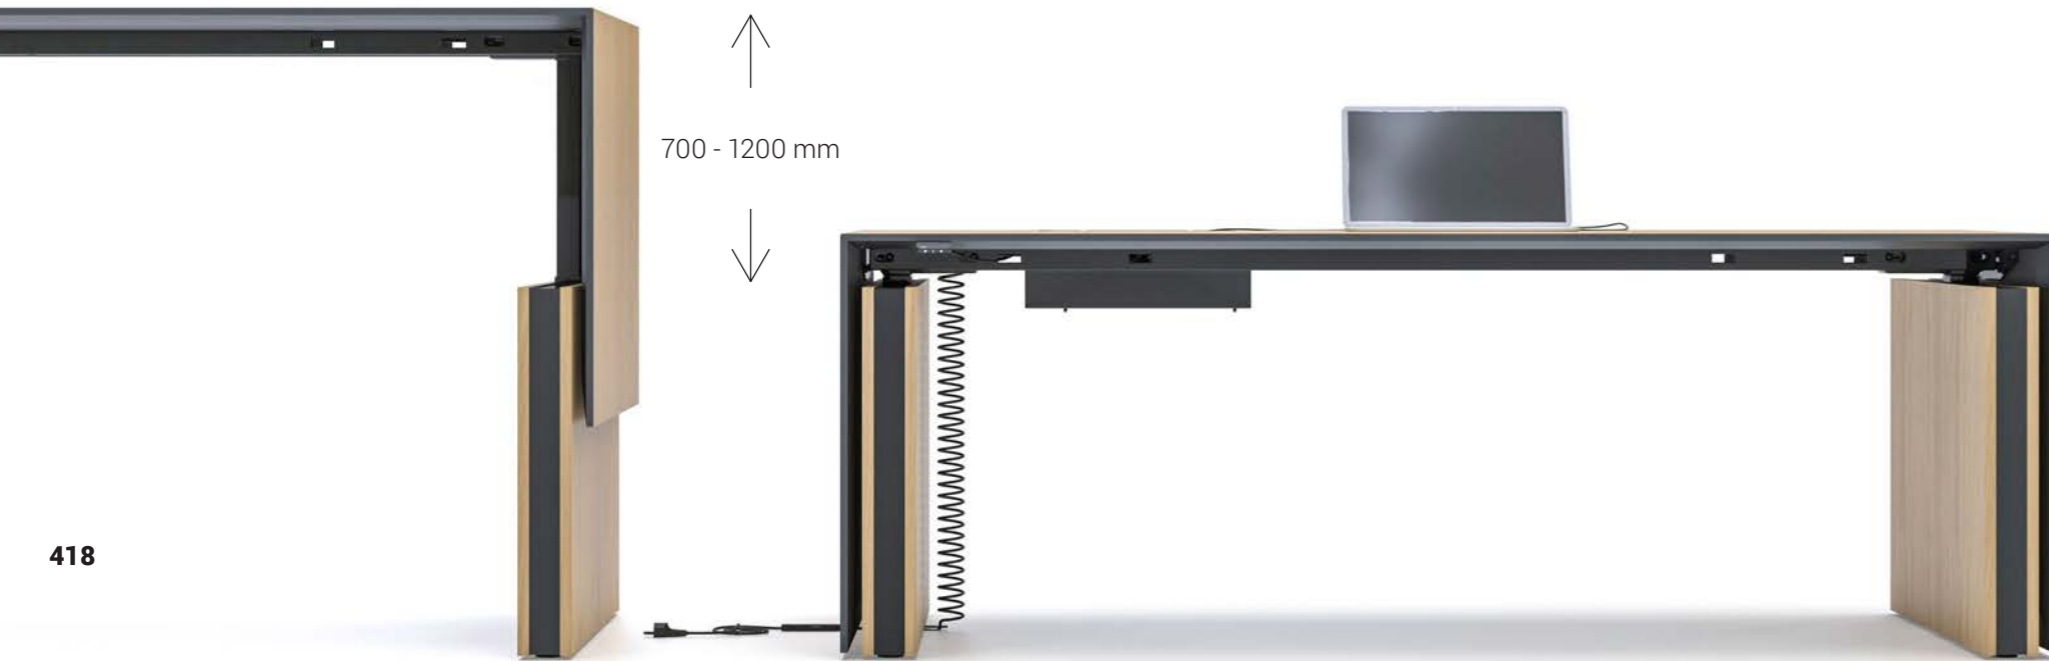

Modern
sophistication

Panel legs hide the space under the desk giving more visual privacy. The feeling of elegance and sophistication is strengthened by the huge size of the top, which is designed for comfortable work. MOTION Executive can have even 36 colour combinations and allows you to create a desk which will suit your interior and personality best.

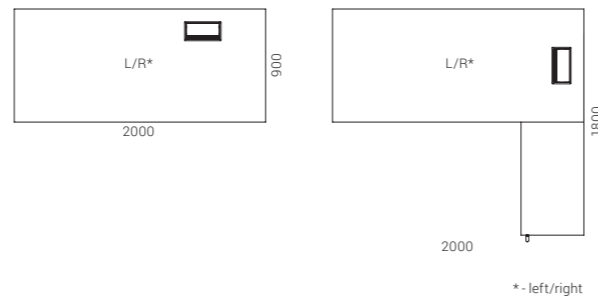

Easy to use

You can adjust the height of the desk by simply pressing the button or with a remote control application on your smart device. You can save the most comfortable positions and get a reminder to change your body position: to stand up or sit down.

418

↑
700 - 1200 mm
↓

* - left/right

Reveal your style and individuality

According to your needs, you can choose from two MOTION Executive models: Executive desk made of veneer is designed for those who appreciate naturalness. The top has a subtly chamfered edge, while side panel wraps the desk and makes it look more united and modern. MOTION Executive desk with melamine finish does not have a side panel and looks more simple and modest.

Obstacle avoidance system

MOTION Executive desk is integrated with a sensitive gyroscope-based anti-collision unit that senses both hard and soft obstacles.

* - left/right

419

Functional storing

The range consists of several pedestals of different sizes and drawers with or without metal file bars. An easily reachable drawer can be situated in the upper corner of the desk, it is convenient for storing your valuables and can be locked for safety.

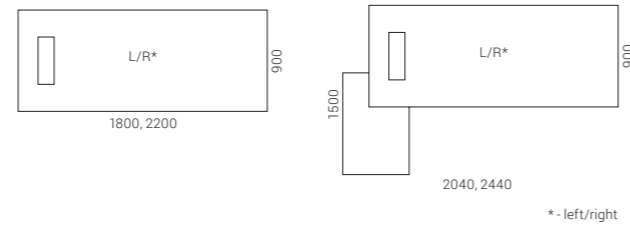

A modern collection
of premium furniture

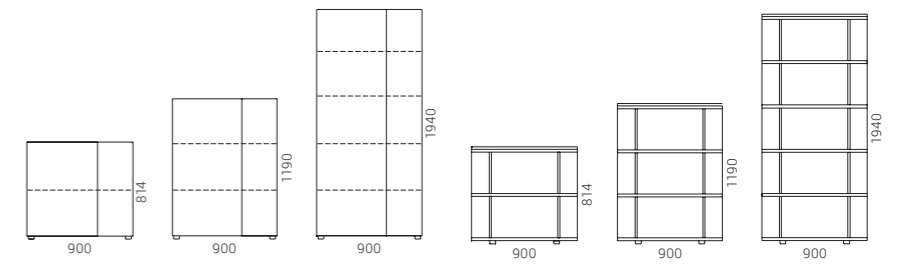

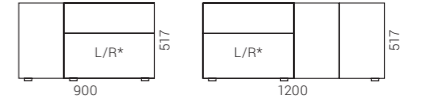

422

The Italian design of the tables is based on the harmony of straight and curved lines. The elegant three-part curved steel legs are crafted using advanced technology and are the ultimate distinctive feature of the system.

Wide range

PLANA tables come with an option of fixed or separate pedestals and many other different storage solutions, such as wardrobes or open shelf units. Modesty panels can be added for a higher sense of privacy, while a table extension can create a space to have meetings right at your desk.

* - left/right

423

Quality in the details

The tables come with soft closing grommet, beautifully framed in metal and concealing the box for wire management. PLANA storage features subtle accents such as different panel thickness combinations, lowered top panel.

433

Minimalistic design

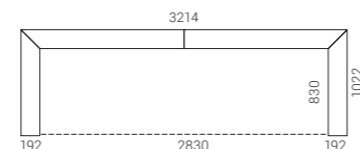

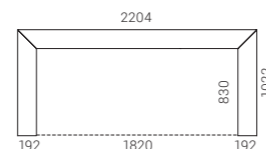

The strict lines of the ICE reception unit create an impeccable shape, suitable for both fancy and ascetic office interiors.

434

Subtle combinations

Depending on your vision for the interior, choose between a cozy melamine, or a luxurious veneer finish. Various front and top combinations are also available. Using the same finish on the top, base and front will create a solid and minimalistic reception unit, which will be as clean and smooth as ice. On the other hand, introducing a different-coloured top or decorative inserts will allow you to subtly reveal the elegance of this reception unit.

Ergonomic workspace

The ICE reception unit conforms to the needs of an ergonomic workspace and fits either one or two workstations – a perfect match for NARBUTAS sit-stand or fixed-height desks.

436

437

RECEPTION
FURNITURE

RECEPTION
FURNITURE

The rules are simple:
never stop creating!

DOMINO is a unique piece of furniture that will enable you to create a one of a kind design for your reception in just 4 simple steps. There are no two identical rounds in the game of dominoes, just like there are no two identical DOMINO pieces of furniture!

Easy way to create
unique reception
furniture

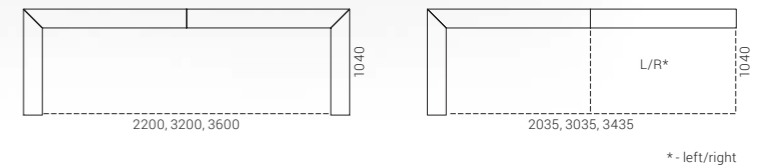

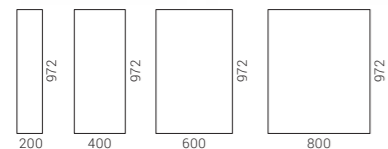

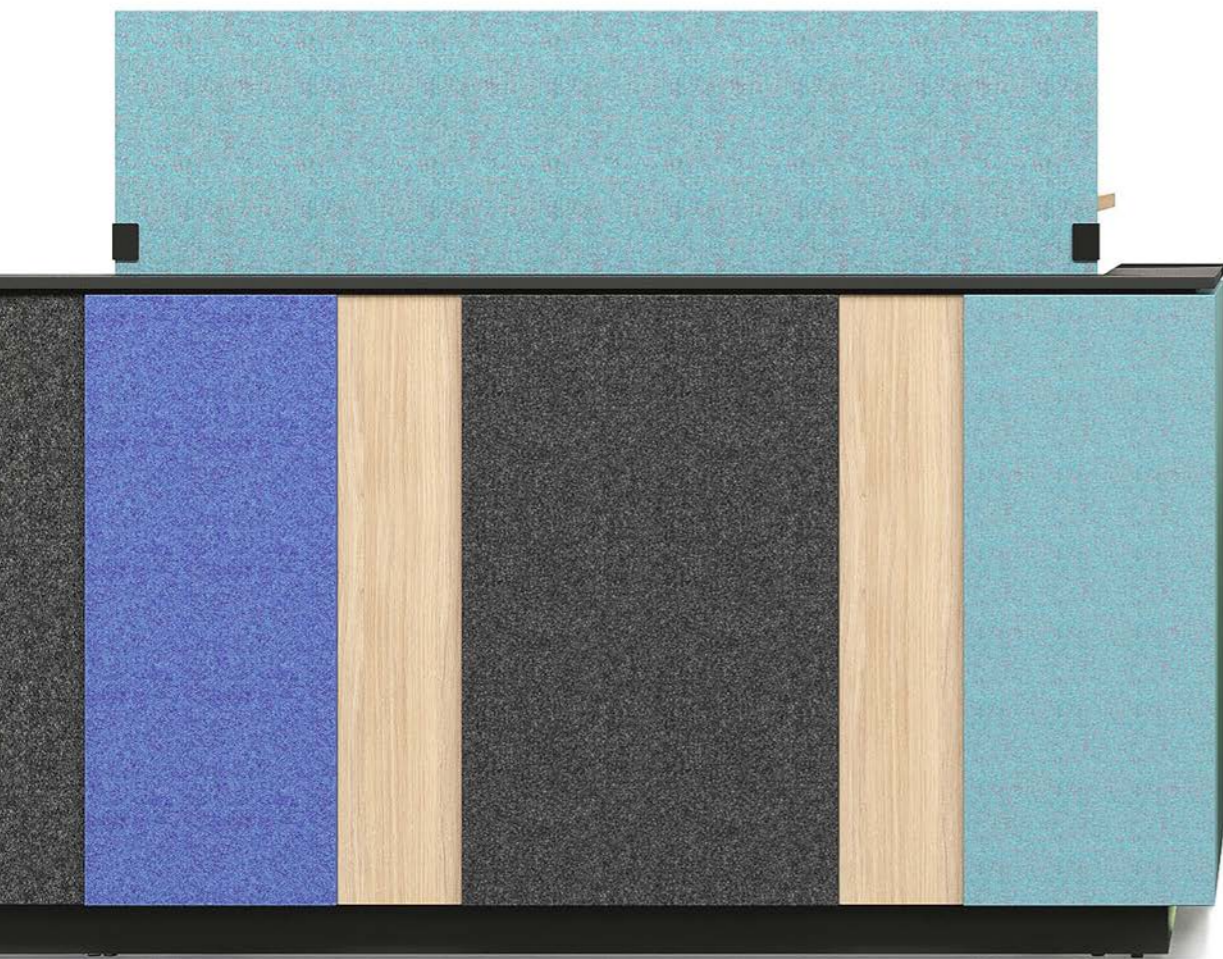

Firstly, choose the furniture base that suits you best from a range of nine different options. Secondly, combine two thicknesses of exterior panels (18 and 31 mm). Thirdly, choose panels in multiple colours and combine different coatings: upholstery, melamine and natural veneer. Lastly, create your own custom pattern using panels available in 200, 400, 600 and 800 mm sizes.

440

441

Cosy atmosphere and acoustic comfort

For your DOMINO setup, we recommend using MODUS acoustic screens which will allow you to maintain consistency in your interior style and provide employees with a sense of privacy.

Ergonomic workplace

You can create an ergonomic workplace using both regular or sit-stand desks which can be adjusted to a chosen height by employees.

Cable management solutions

DOMINO reception furniture has all the cable management solutions that are necessary for an ergonomic workplace. Electrical and internet cables will not get in your way and your desk area will be clutter-free and aesthetically pleasing to the eye.

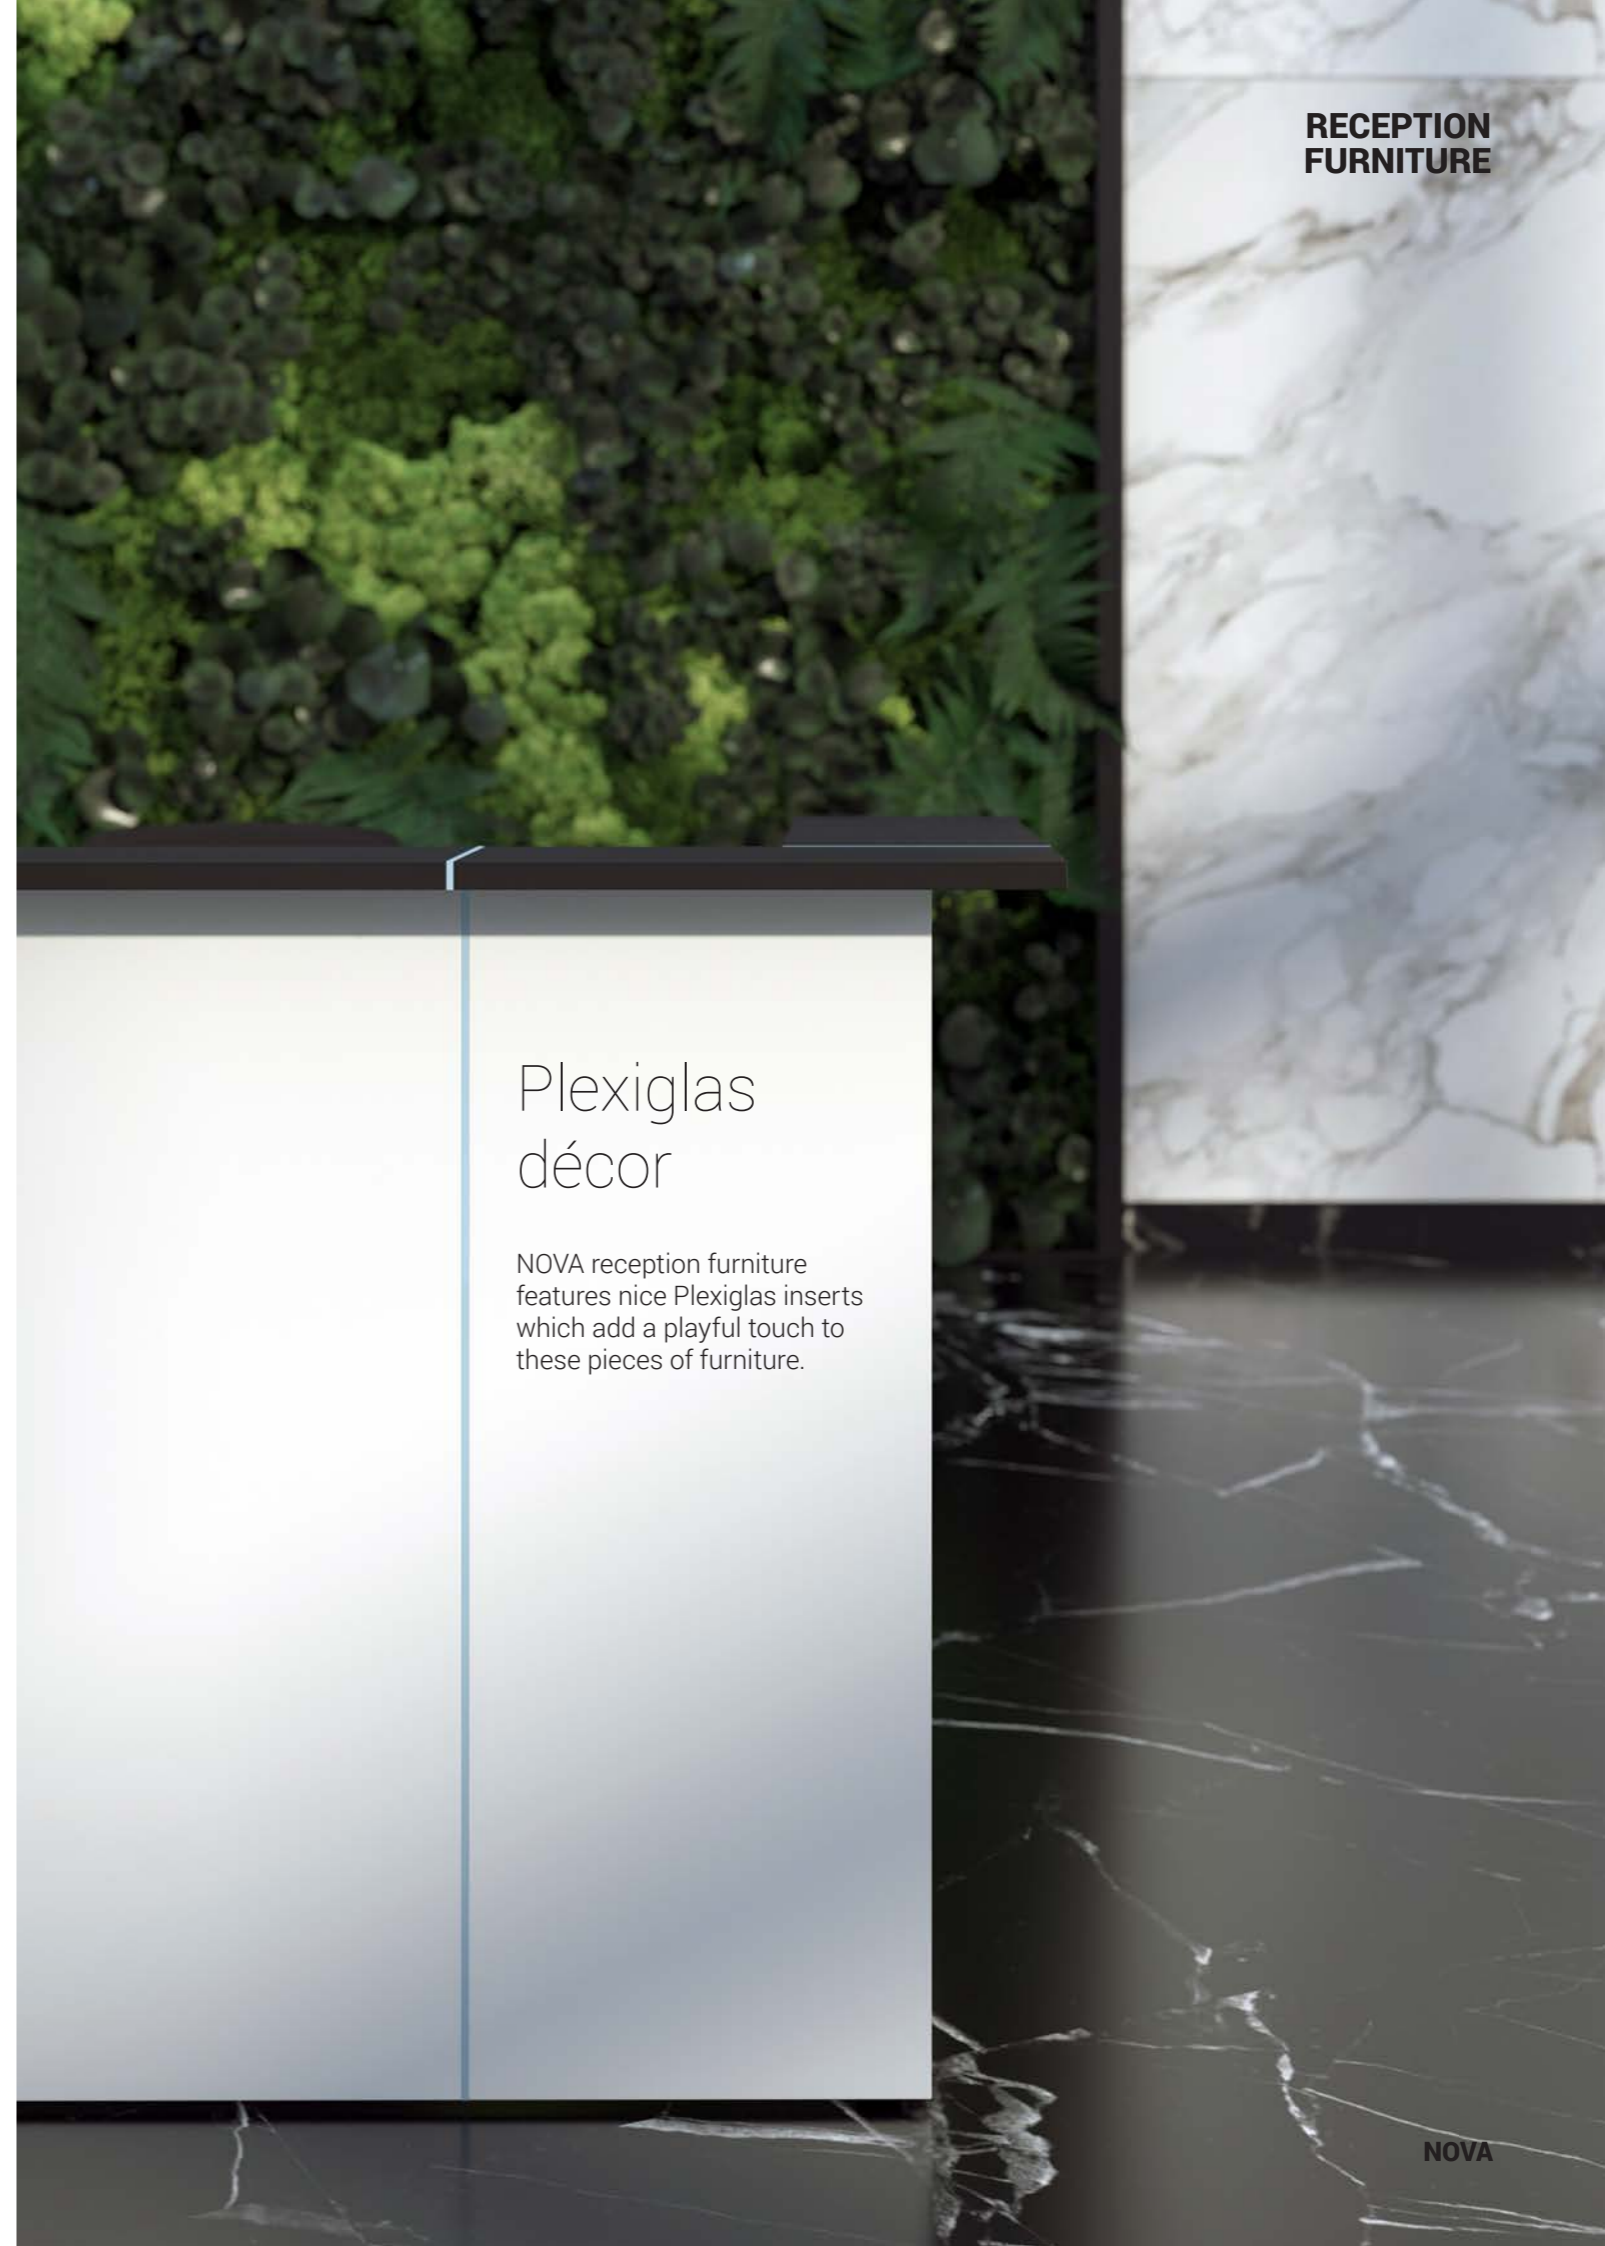

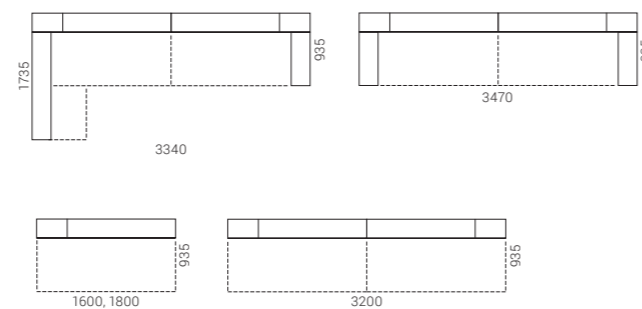

NOVA

446

Varying forms

Our reception furniture sections are available in different forms. Choose a combination best suited for your office layout.

Plexiglas décor

NOVA reception furniture features nice Plexiglas inserts which add a playful touch to these pieces of furniture.

COSY

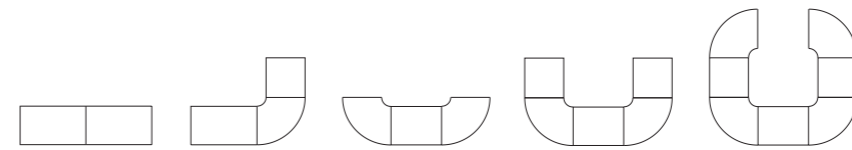

448

A clean, modern look with no sharp corners on the front side will create a friendly and cosy atmosphere for your visitors. A compact-looking reception is equipped with a 2000mm long table which provides plenty of working space and has many niches for storage. This product also features high-quality impact-resistant materials for better durability.

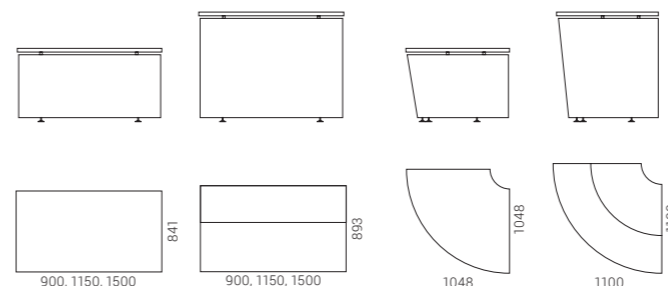

TERA

This modular reception furniture system offers modules in different forms and sizes and is ideal for reception areas of various offices.

449

CUSTOM-MADE SOLUTIONS

CUSTOM-MADE SOLUTIONS

More room for creativity

We are flexible and offer our customers the service of designing and producing custom furniture. We will adapt the furniture to different needs, bringing every client's vision to fruition.

Customised production can be of two types: making changes to standard furniture according to the customer's needs; or creating a completely new and unique product. The engineers and designers of custom furniture must make sure that the customer's ideas are fulfilled down to the smallest detail, while paying special attention to the functionality of the furniture.

NARBUTAS has a wide range of production facilities for large-scale production, as well as for small batches of furniture or one-off products. This makes it possible to work with many different materials, to produce furniture with curved shapes and metal parts of varying complexity, as well as soft furnishings and acoustic furniture. The plant's modern equipment is versatile, so the range of possibilities is extremely wide.

Definition of icons

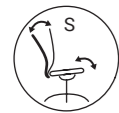

TILT MECHANISM

The backrest and seat base are linked. When user leans back the whole chair tilts.

KNEE TILT MECHANISM

The backrest and seat base are linked. When user lean back the whole chair tilts. This mechanism allows user to tilt back while the feet remain on the floor, no pressure on the back of the shin.

SYNCHRONOUS MECHANISM

The seat tilting angle is smaller than the tilting angle of the backrest, so that the chair would be more comfortable. This mechanism allows user to tilt back while the feet remains on the floor, no pressure on the back of the leg.

WEIGHT-SENSITIVE MECHANISM

Mechanism automatically adapts to the user's weight and movement when leaning back.

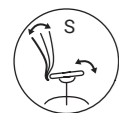

TENSION ADJUSTMENT

This adjustment allows user to control the rate and ease with which the chair reclines for different weights and strengths.

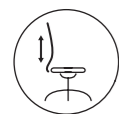

LOCKING POSITIONS

The backrest of the chair has multiple locking positions with different angles for comfortable working, reading or resting.

BACKREST TRAVEL LIMITATION

The backrest travel is limited to 3 positions with back locking in the upright work position.

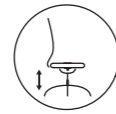

BACKREST HEIGHT ADJUSTMENT

The backrest height can be individually adjusted according to the height of the user.

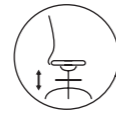

SLIDE SEAT

This adjustment helps the user to regulate the distance between the backrest and front edge of then seat, thus providing optimum support for the upper thighs. Correctly adjusted seat depth helps user to maintain proper back support, while distributing the weight evenly across the seat cushion.

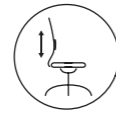

PNEUMATIC HEIGHT REGULATION

This adjustment allows the user to change the height of the seat. Pneumatic mechanism uses pressurized air to lift or lower the seat.

HEIGHT ADJUSTABLE FOOTRING

The footring of the chair can be adjusted in height for the comfortable position of user's feet and legs without depending on the chair height position. It helps to maintain a correct seating position and avoid unpleasant back and neck pain.

ADJUSTABLE LUMBAR SUPPORT

The lumbar support can be adjusted in height and depth (depending on the chosen chair type). Adjustable lumbar support can be adapted to user's individual curve of the spine. It helps to reduce the muscle strain and protect from the back pain.

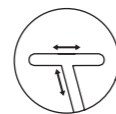

LUMBAR SUPPORT

The lumbar support is mounted into the backrest and helps to reduce the muscle strain.

HEADREST

This additional part of the task chair helps to reduce tension in your neck muscles, provides support and comfort to the head and neck while in a reclined position.

ADJUSTABLE ARMRESTS

Depending on the chair type armrests are adjustable in two, three or four directions (2D, 3D, 4D): height, width, the pad moves forwards and backwards or is rotatable. Height adjustment takes the strain off the neck muscles. Width adjustment and rotation allows the user to position the armrest in proper distance from the body and helps finding the most comfortable support angle.

WRITING TABLET

Rotatable. It allows users to put their notebooks, laptops or tablets upon.

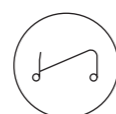

STACKABLE

Chairs can be easily stacked one onto another. Therefore, they are perfect for offices with low storage space.

CONNECTORS

Allow linking chairs in orderly rows.

TROLLEY

By using the trolley, you can easily store or move stackable chairs from one place to another.
