

Battery-operated ISC BATRIX L 36-18V w/o battery/charger

Order No. 100999

Equipment

- The first commercial battery-operated wet/dry vacuum cleaner – comparable to suction power of corded appliance
- **With the world novelty Cordless Control** – Innovative vibration sensor mounted at suction hose will detect operating status of battery-powered tool and will automatically switch the vac on resp. off (by radio signal)
- **Compatibel with leading battery** technology in this branch - all 18V or 36V-battery packs of the manufacturer independent CAS-Systems can be used!
- **Automatic pulse filter cleaning** – cleans filters during work break: suction can be continued with an unchanged high air flow
- **New developed brushless motor** and intelligent motor control – extended life time, higher efficiency and more power per battery charge
- **Battery management** with temperature control and charge control indicator
- Proved job-site container: double wall 25-l-capacity & rubber cap: ensures dust free transportation
- **Storage options** on the vacuum cleaner for Starbox (not lockable), accessories and suction hose
- **Battery compartment** for 2 x 18V or 1 x 36V

Technical Data

Voltage	36V (1 x 36V/2 x 18V)
Running time with 2 x 18V 10.0 Ah (approx.)	Boost 20 min / Eco 34 min / Low 100 min
Air flow max. (at turbine) l/s	67
Vacuum max. (at turbine) mbar	240
Container volume max. l (gross-dust-water)	25/20/15
Sound pressure level dB(A)	69
Dimensions (L x W x H) cm	45 x 40 x 57,5
Filter surface cm²	8.600
Weight (w/o batt./acc.) kg	12,5
Reach m	∞

Accessory (in scope of delivery)

- 1x suction hose EL 35-400 (electr. conductive) with connection sleeve
- 1x Cordless control
- 2 x folded filter cassettes FKP 4800 M Adv. Polyester (dust class M, ≥ 99,9%)
- 1x tube handle, stainless steel
- 2x suction tube, stainless steel
- 1x crevice nozzle
- 1x dust nozzle 30
- 1x FBV 25/35
